Fitted Furniture Buying Guide.

All you need to know about buying the right fitted furniture for your bathroom or en-suite space.

When choosing your fitted furniture, there are a number of factors to consider. To help you make an informed decision, follow our step-by-step guide opposite.

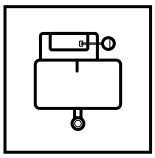

Fitted Furniture Buying Guide

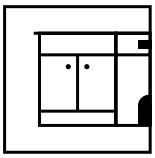

Step 1
Carcass + Panels

Your first step is to select your carcass. Consider your room size – is it for a family bathroom or smaller en-suite? Most fitted furniture runs will consist of a semi-countertop basin unit and back to wall WC unit. Panels hide the carcass at each end.

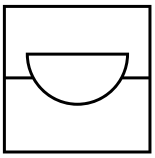

Step 2
Cistern + Flush Button

If you are installing a back to wall WC unit you will need a cistern as it provides flushing water to the pan. You will also need a flush button or flush plate.

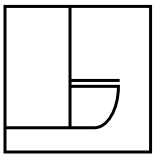

Step 3
Fascia Packs

Our fascia packs are available in three styles – Shaker, Slab or J-Pull. Semi-countertop fascia packs comprise two doors and a top fascia. Back to wall fascia packs mask the carcass and cistern and plinths mask the gap below the carcass.

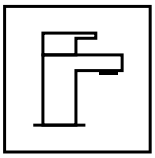

Step 4
Worktop or Integrated Basin

Choose either a worktop or integrated basin with worktop, available in slim or standard depths. Our worktops are available in a variety of lengths and finishes.

Step 5
Sanitaryware

Select from a wide variety of contemporary or traditional basins, back to wall or wall hung pans to suit your style and complement your fitted furniture selection.

Step 6
Choose Accessories

Your final step is to choose complementary handles, bathroom taps, cabinet or mirror. **So now you know how. Browse through the pages ahead and create the perfect bathroom for you.**

All dimensions in mm. All measurements are approximate and subject to standard tolerances.

How to Order Your Fitted Furniture

Adding the finishing touches to your fitted furniture creates a unified look and maximises the space available in your bathroom. All units have soft close hinges and basin units feature an adjustable shelf, removable back panel for easy pipe access and a 50mm plumbing void. Floor cupboards have a reversible door for ease of access.

Choose from 3 door styles in a range of contemporary finishes, work out which mix of units works best for your space and then add all the finishing touches. It's easy to plan your new bathroom, simply follow the step-by-step guide below.

1. Door Styles + Finishes

Choose your desired door finish in either 'slab', 'shaker' or 'J-Pull' style.

Slab Style

Matt Aloe Green | Matt Powder Blue | Savannah Oak | Calabrian Walnut | Matt Midnight Grey | Matt Stone Grey | Matt Fossil | Gloss White

Shaker Style

Matt Aloe Green | Matt Powder Blue | Matt Midnight Grey | Matt Stone Grey | Matt Natural White | Matt Fossil

J-Pull Style

Matt Aloe Green | Matt Powder Blue | Matt Fossil | Matt Midnight Grey | Gloss White

2. Combination + Depth of Units (Pages 76-81)

Assess the space you have available in your bathroom + work out which units you need. Choose from standard depth (353mm) or space-saving slim depth (218mm) units.

Standard Depth

Slim Depth

Guarantees

5 Years on Fitted Furniture

How to Order Your Fitted Furniture

3. Handles (Page 82)

Choose your handle style from the 11 available options.

4. Worktops (Page 83)

Select a worktop from either our Strata solid surface or laminate options.

Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim depth units.

5. Panels + Plinths (Page 84)

Select the plinths to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

6. Sanitaryware (Pages 88-129)

Choose sanitaryware options from the wide range of semi-countertop basins and back to wall WC pans.

7. Coordinating Bath Panels (Page 84)

Select a Coordinating bath panel.

8. Tap Options (Pages 206-233)

Complete your bathroom with an Instinct basin mixer.

Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

Pans + Bidets

Rimless
Rimless flushing, hygienic and easy to clean.

Vortex Flushing
Vortex flushing delivers powerful, water-saving, low-noise flushing with advanced anti-splash performance.

Comfort Height
The comfort height option sits several centimetres taller than standard WCs.

Short Projection
Space saving short projection pans, ideal for small washrooms.

Air Gap
Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

Right Hand Flush
Ergonomically positioned cistern handle for convenient flushing.

Full Flush Volume
The total volume of water discharged from the flushing system during a flush cycle.

Dual Flush Volume
The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 4 litre flush or a standard 6 litre flush.

Eco Dual Flush Volume
A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

Toilet Seats

Quick Release
Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

Top Fix Hinges
Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

Soft Close
The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

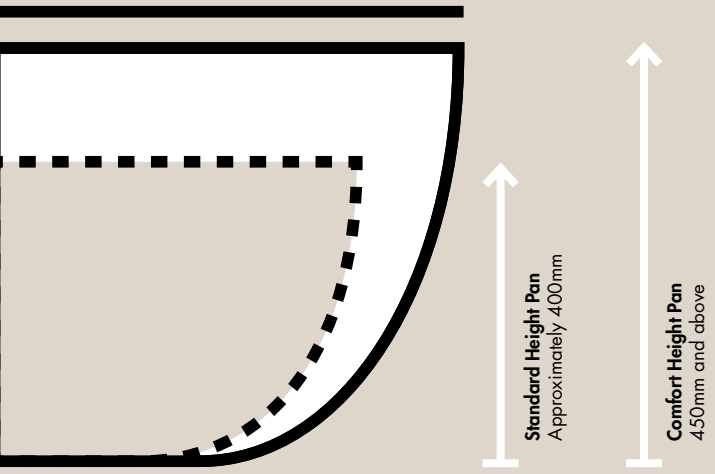

Toilet Seats
Page 128

INSTINCT®

Comfort Height Pan.
Short Projection Pan.
What's the difference?

Comfort Height Pans

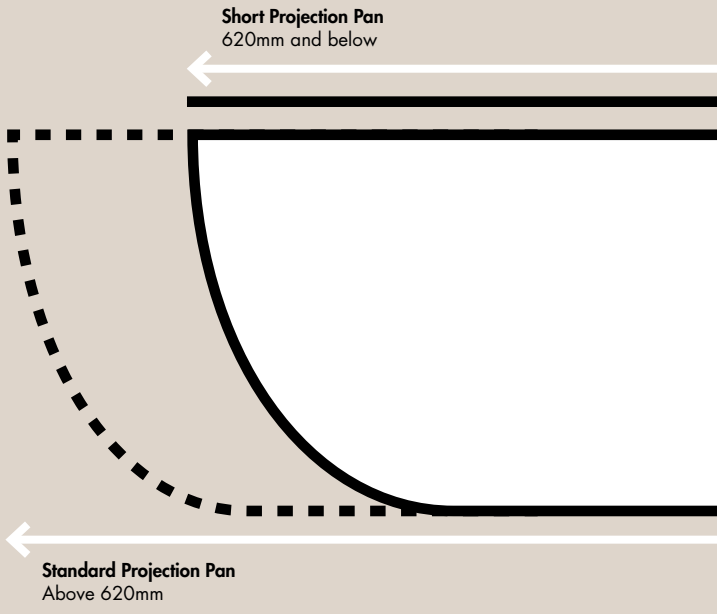

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

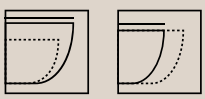

Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm* and below (standard projection pans are typically above 620mm).
A short projection pan is ideal for a small bathroom or cloakroom suite.

**620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 89 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.

Flush Buttons Compatibility
Oval, Nuance and Kiso Dual flush buttons are suitable with cisterns on page 133 except where shown or require allowance for maintenance access.

Guarantees

5 **Years** on Contactless Flushing

Contactless Flushing

Ø38mm

Ø48mm

Flush Valve

Hygienic Flush

Close Coupled sensor flush kit – for Ø38mm cistern hole

Instinct Contactless Close Coupled Flushing

Finish – Chrome
Infrared Sensor – Provides a hygienic touchless flush, with just a wave of a hand
Compatibility – **INST02041** compatible with **Espada, Keros, Kinsley** and **Lissett cisterns** to upgrade to contactless flush. Use **INST02042** for **Firbeck** and **Brierley cisterns**.

Both kits compatible with most paddle operated Flush Valves for retrofit applications
If retrofitting to cisterns with cable operated or screw in buttons, replace Flush Valve with INST02043 which has a 2" base.

INST02041	Close Coupled Sensor Flush Kit (For Ø38mm Cistern Hole)	£101.00
INST02042	Close Coupled Sensor Flush Kit (For Ø48mm Cistern Hole)	£101.00
INST02043	Paddle Operated Close Coupled Dual Flush Valve 2"	£33.00

Instinct Contactless Dual Flush Remote Sensor Kit (Pneumatic Concealed Cisterns)

Hygienic Flush

Finish – Kit includes Chrome, Matt Black, Brushed Brass and Gunmetal "buttons" to indicate sensor location or upgrade to a Brushed Bronze or Brushed Nickel finish
Infrared Sensor – Provides a hygienic touchless flush, with just a wave of a hand
Flush – Dual flush for water-saving, efficient use
Depth – Works through surfaces up to 25mm thick (including ceramic tiles, fascias & worktops)
Power Source – Powered by 4 x AA batteries (lasts about one year)
Alarm – Low battery alarm, battery life in excess of 1 year
Dimensions – 104(h) x 73(w) x 97(d) mm

INST13014		Sensor Kit	£188.00
Button Upgrades			
NEW	**INST37189**	Brushed Bronze	£12.00

INSTINCT®

Why choose an Instinct Cast or Premiercast bath?

Hand finished in the UK to the most exacting of standards, Instinct Cast and Premiercast baths are durable and strong with a reassuring substantial weight, perfect for all bathrooms.

Instinct Premiercast

The ultimate premium acrylic bath

All Instinct Premiercast baths are constructed by hand. Firstly the bath is formed from high quality 5mm acrylic, then a full timber supporting frame is added to both the base of the bath and the underside of the rim. This creates a strong base to then apply by hand, 7 layers of fibreglass core matting. Between each layer a resin bonding adhesive is applied which, when dry creates a super strong encapsulated bonded core. Finally the bath is coated with a mix of resin and blue paint, which provides a smooth and superstrength final bonded surface.

1. 5mm colour match reinforced acrylic panels
2. Timber frame fully encapsulated with 7 layers of resin bonded fibreglass
3. Blue stoplight resin paint
4. Base board fully encapsulated with 7 layers of resin bonded fibreglass
5. 5mm acrylic encapsulated with 7 layers of resin bonded fibreglass

Instinct Cast

Reinforced acrylic bath

All Instinct Cast baths are constructed by both hand and Automated processes, for efficiency and speed. The first process is to form the bath from high quality 5mm acrylic, then a full timber supporting frame is added to both the base of the bath and the underside of the rim. This creates a strong base for a Fibreglass sprayed layer to be applied, encapsulating the timber frame creating a durable and strong bath. Finally the bath is coated with a mix of resin and grey paint, which provides a smooth and strong final bonded surface.

1. 5mm colour match reinforced acrylic panels
2. Timber frame fully encapsulated in spun resin for rigidity + strength
3. Grey stoplight resin paint
4. Base board fully encapsulated in spun resin
5. 5mm acrylic with reinforced spun resin

Instinct freestanding baths,
designed to be the centrepiece.
Sculptural designs in classic and contemporary styles,
finished with coordinating accessories, crafted to elevate your bathroom.
INSTINCT®

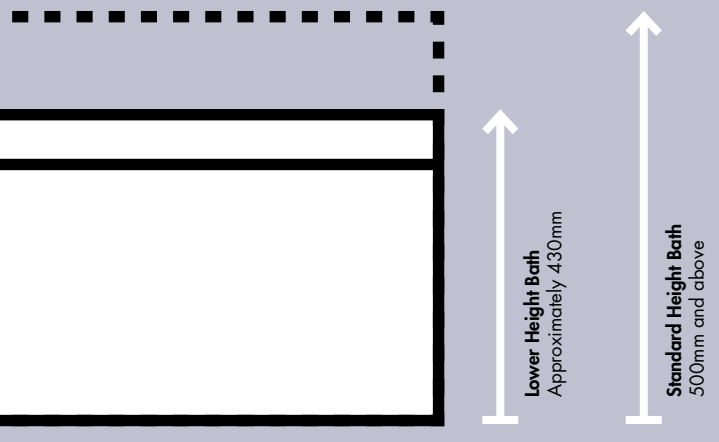

INSTINCT®

A Smarter Solution for Bath Replacement.

Lower Height, Greater Accessibility

Lower height baths make everyday use noticeably easier by reducing the step-over height, improving comfort and accessibility for a wide range of users. This thoughtful design detail is particularly beneficial in family bathrooms and renovation projects, where ease of use is as important as appearance.

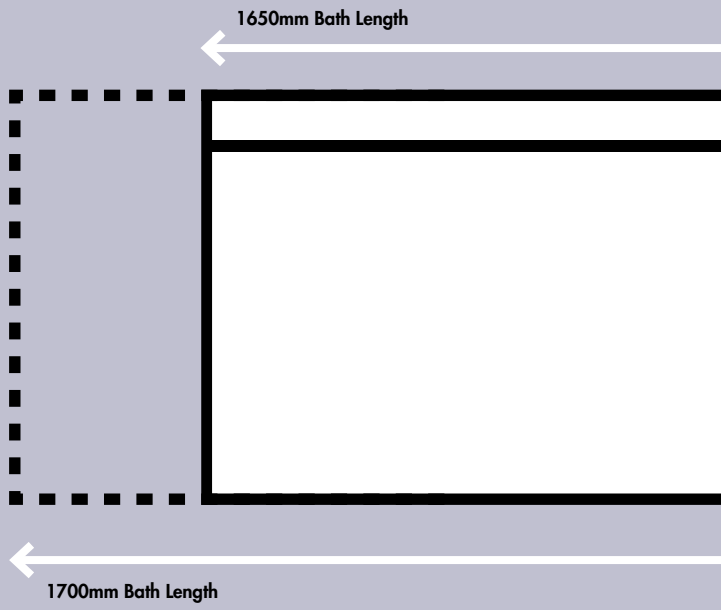

Importantly, this added practicality doesn't come at the expense of style. Lower height baths retain clean lines and a modern profile, making them an easy upgrade that improves usability while still delivering a sleek, contemporary look.

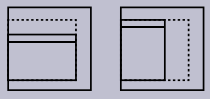

Minimal Size Change, Maximum Practical Benefit

Replacing a standard 1700mm bath doesn't have to be complicated. Shorter 1650mm baths are a proven solution for installers, offering an easier, more flexible fit without compromising comfort.

The slight reduction in length allows walls to be boarded over and re-tiled with minimal disruption — ideal when replacing baths fitted tightly between two walls. Despite the smaller size, water capacity remains comparable, with only a marginal reduction that's barely noticeable in use.

Please look out for the lower height and 1650mm bath icons on the following Cast Bath pages.
A simple upgrade that makes a big difference.

Wetrooms Solved

Wetroom Systems

Ultimate build quality 'behind the tiles'

Build your bathroom + wetroom in 3 simple steps

We've made it as simple as possible to achieve your perfect wetroom.
With a comprehensive range of shower trays and complementary shower screens plus a selection of tile backer boards for wall and floor, you can create an aspirational space that combines cutting-edge design with industry-leading waterproofing properties.

1 Waterproof your bathroom behind the tiles

We recommend using our Tile Backer Boards and Waterproofing Components for a fully waterproof installation on the walls and floors.

2 Create beautiful wetrooms

Designed and manufactured in the UK specifically for the UK market, Elements wetroom shower kits are the ultimate way to create the perfect secure wetroom.

Whether your requirement is fully level access or raised wetrooms we can accommodate your needs.

Supplied with full installation kit and high capacity drain.

3 Design waterproof recessed shower storage

Designed for pre-wall installation to make excellent use of space otherwise lost. Manufactured from the same high grade material used to produce our waterproofing building product range, our selection of recessed storage is fully waterproof and ready for installation.

About Grant Westfield – The UK's Best Selling Bathroom Wall Panels

Since 1881, Grant Westfield has been dedicated to manufacturing exceptional interior building products in Edinburgh. Throughout the course of over 140 years, successive generations have upheld a shared passion for craftsmanship, high quality, and innovation.

Over 8,000 Grant Westfield wall panels are manufactured each week at the company's factory in Edinburgh, which are distributed throughout the UK and Northern Europe through merchants, bathroom showrooms and leading online retailers.

Our Brands

Multipanel - In 2003, we introduced Multipanel, the UK's leading bathroom wall panel and in over two decades sales have grown to over 1 million square metres per year. From marbles and stones, to the award-winning Tile Collection, Multipanel allows for the creation of intricate and luxurious bathroom interiors.

Naturepanel - Following the rise in demand for slat wall design, Grant Westfield introduced Naturepanel in 2024, providing the same authentic aesthetic as traditional wood panelling, without the maintenance. Suitable in wet areas, award-winning Naturepanel can be used in bathrooms and showers, and due to the unique Hydrolock joint can be installed with sister brand, Multipanel bathroom wall panels to create a stand out interior.

Grant Westfield panels are FSC®-certified. This ensures the timber we use originates from responsibly managed forests and other controlled sources, and our finished products comply with globally recognised ecological, social and economic standards for complete customer assurance on responsible sourcing. We're proud to have obtained an Environmental Product Declaration (EPD) for all our UK collections. The EPD covers environmental impacts from cradle to grave and has been independently verified to help you choose products that support carbon emission reduction.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

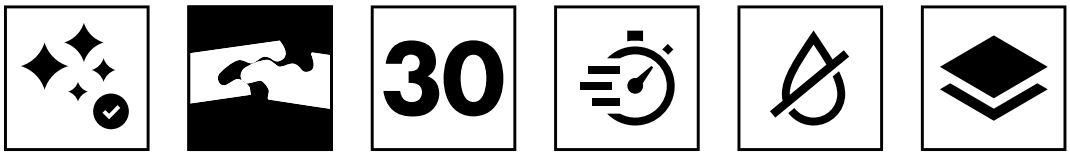

Hydrolock Installation
To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Naturepanel, Tile, Pure, Linda Barker and Contemporary) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation –
2400 x 598mm, 2400 x 900mm, 2400 x 1200mm, 2700 x 598mm, 2700 x 1200mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

Scan the QR code and watch a video to learn more about Hydrolock installation and its benefits.

Why Choose Grant Westfield

Easy to keep clean | Almost seamless joint with Hydrolock® | 30 year warranty | Quick and easy to install | Fully waterproof | Can be installed over old tiles

How to create the XL Offset tile pattern

To create the offset tile appearance simply install an 'A' followed by a 'B' format panel.

Please note these are supplied individually and not in pairs. When planning your bathrooms, please consider the positioning of showers, taps etc, when calculating the quantity of each panel format required.

Multipanel – The Tile + Pure Collections

White Mineral, Multipanel – The Tile + Pure Collection

The Tile + Pure Collections share an inspired range of marble, minerals and colours, to allow you to create elegant combinations for your new bathroom.

The Pure Collection includes on-trend designs and textures for a sleek, elegant look.

Renovate your bathroom with our stylish, neutral earth tones or add a touch of colour to your walls with our pinks and blues. If you're looking to recreate that spa-look instead, check out our mineral décors and bestselling marble effects.

Combine you colour choice with a pattern from our Tile range in either XL Offset, Large, Herringbone or Metro styles.

If you love the appearance of traditional tiles but are tired of living with the maintenance of grout, the Multipanel Tile Collection is what you have been waiting for.

The Tile Collection is the first tile-effect wall panel to be Made in Britain and FSC®-certified. Using the very latest in manufacturing technology, we etch a 2.5mm pale grey grout line into our Tile Collection décors, creating a beautiful tile effect with laser precision. Unlike traditional tiles, these tile effect panels are simple to clean and easy to maintain.

Years 25 on Fibo Wall Panels

About Us

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of tile-effect wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the 'click' system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Did you know?

Research has revealed that Fibo's leading waterproof wall panel system has a carbon footprint that is 37% lower than tiles when installed in a typical bathroom. This is in part due to Fibo sourcing their plywood from sustainable PEFC certified sources. So, when you choose Fibo wall panels you can be confident that you're choosing the greener option and reducing your carbon impact.
Plus, Fibo wall panel surfaces are all antibacterial so there's no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?

Designed and made in Norway

Lithium Elements, The Elegance Collection

About Perform Panel – Today's alternative to tiles

With easy installation, no grouting and a unique high-performance fitting system, Perform Panel is the beautiful, efficient, modern alternative to tiles. Available in a large selection of stylish designs across our core ranges. Perform Panel works with any interior scheme. Made in the UK by a family firm trusted by the building industry for 160 years.

MADE IN BRITAIN

Nu-Lock Joint

Nu-Lock

Manufactured using 7-ply birch plywood, with a "click" tongue and groove finish as standard, creating a seamless joint and look to each panel.

Perform Panel Trims

Seal and finish wall panel edges and joints with a range of trims, available in a variety of finishes including satin anodised aluminium, white, chrome, black, brushed black, and brushed brass.

Nuvola Marble, Elite Collection

About Wetwall – The Modern Alternative to Tiling

Wetwall is a waterproof wall panel system with a stunning finish. The innovative designs help to create a high-end look without the luxury price tag.

From the elegant and timeless decors offered by our Mermaid Collection to the more contemporary and modern style of our Alloy and Elite Collections, Wetwall™ bathroom wall panels can elevate the aesthetics of any space.

Why use Wetwall panels?

Simply put, they enable amazing spaces to be created without any of the difficulties that come from traditional tiling.

Large format designs can be effortlessly installed, without compromising on performance or aesthetic. From the trim-free, post-formed edge of elite for the ultimate in seamless design to the robust and efficient 4mm-thick Alloy range which overtiles existing walls easily, there's no bathroom vision that can't be achieved when choosing Wetwall.

All this and backed up with a lifetime warranty when installed using Wilsonart Complete Adhesives and Sealants.

Himalayan Marble, Elite Collection

Alloy Collection

Edge Profiles

Square Edge (SQ)

Features square edges on both sides. A versatile panel that can be used to create any bathroom wall covering installation. Also ideal for creating bath panels, bespoke splachback and niche designs.

Elite Collection

Edge Profiles

Post-formed + Tongue Edge (PF+T)

Features one finished radius edge and one tongue edge to link T&G panels.

Tongue Edge + Groove Edge (T+G)

This panel is used to continue a design beyond a single-panel width.

Tongue Edge + Post-formed Edge Finishing (PF+T)

This panel allows you to finish a run of T&G panels with a neat post-formed detail.

Post-formed + Post-formed Feature Panel (TP+PF)

With two pre-finished edges, this panel can be used for short returns and is alos idral for use behind WCs and wash basins.

Mermaid Collection

Edge Profiles

Square Edge (SQ)

Features square edges on both sides. A versatile panel that can be used to create any bathroom wall covering installation. Also ideal for creating bath panels, bespoke splachback and niche designs.

Wetlock Joint System (Wetlock System)

Our Wetlock tongue-and-groove joint is designed to deliver the same benefits installer trust from T+G joints and continue a design beyond a single-panel width.

All dimensions in mm. All measurements are approximate and subject to standard tolerances.
Prices include VAT.

Heated Towel Rail Buying Guide.

All you need to know about buying the right heated towel rail for your bathroom, cloakroom or en-suite space.

When choosing your heated towel rail, there are a number of factors to consider. To help you make an informed decision, follow our step-by-step guide opposite.

Heated Towel Rail Buying Guide

Step 1
Heating Source*

Your first step is to decide if your are going to connect your towel rail to your central heating system, existing mains electric or run off both as a dual fuel option.

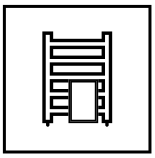

Step 2
Location

Consider your room size – is it for a family bathroom, downstairs cloakroom or smaller en-suite? Location will determine the size and heat output of the towel rail required.

Step 3
Heat Output

BTU (British Thermal Unit) output is one of the biggest considerations when deciding your towel rail. The higher the BTU, the higher the heat output will be. Bigger bathrooms need higher BTU rated rails, smaller en-suites lower.

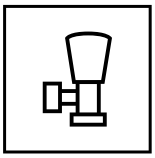

Step 4
Choose a Style

There are many styles of heated towel rails. Select a Contemporary, Traditional or Ladder style to suit your new bathroom or complement your existing space. Choose from floor standing or wall mounted options; where floor space is at a premium.

Step 5
Choose a Finish

Select from a wide variety of colours and finishes. Chrome is a very traditional finish but consider new metallic finishes in Brushed Brass, Gunmetal or colour options in Anthracite, Steel Blue or White Sparkle to name a few. The choice is yours!

Step 6
Choose Accessories

Your final step is to choose a complementary valve or heating element accessory.
So now you know how. Browse through the pages ahead and choose the right option for you.

Step 7
How to Order

All towel rail options are for Hot Water Heating systems only.

If you wish to order a Sealed Electric option please add the supplement code **PHG-EO-SUPP**.
If you wish to order a Dual Fuel option please add the supplement code **PHG-HE-SUPP**.

Elements NEW

D-Shape Temperature Control Electrical Element

Featuring a modern design and additional functions, is equipped with an electronic controller and easy to view LED display. This display indicates the radiator's water temperature and provides complete control over the touch temperature of any unit it is fitted into, allowing you to take charge of your comfort.

The model is ideal for use with 22 and 25mm multi-rail towel warmers and features:

Finish – Chrome or Matt Black
Smooth Temperature Adjustment – Between 10°C to 65°C in 1°C increments
Boost Function – 1, 2 or 3 hour periods
Timer – Maintaining previously selected temperature for a period of 1 to 9 hours
Element Cable Length – 0.9m

NEW	**PHG-EE009HE-SUPP**	Dual Fuel	£207.00
NEW	**PHG-EE009EO-SUPP**	Electric Only	£343.00

Shroud Options

Clip into place shroud accessories for the D-Shape temperature control electrical element. These shrouds are available to suit the uprights of your towel warmer in round or square format.

These can be purchased separately if required at prices shown.

Finish – Chrome or Matt Black

INSTINCT® | PRO

Warmup®
The world's **best-selling** floor heating brand™

Electric Underfloor Heating

A cleaner smarter way to heat your home.

Warmup's underfloor heating uses radiant heat technology, which heats objects in a space directly rather than just warming the air of the room. You can use underfloor heating as your home's primary heat source or install a system in just one room.

To find out more, pick up your Instinct Pro Plumbing + Heating Brochure today.
