# TRADE PRICE GUIDE

[www.maloneys.co.uk](http://www.maloneys.co.uk)

## Marking 10 Years in the Plumbing and Heating Trade!

Maloney's was founded by Colm Senior and Colm Junior in 2015 to deliver trusted service and expert support to the plumbing and heating trade. Over the decade, we've grown with the industry, shifting from traditional heating to smart sustainable solutions, while maintaining our core values and commitment. From a family run trade counter to a Daikin Sustainable Home Centre, Maloney's remains dedicated to guiding and supporting the trade's evolving needs.

Still family-run.  
Still moving forward.

All offers in this publication are subject to availability and manufacturers' price increases.

## 10 Years of Maloney's

Maloney's opened in 2015, founded by father and son Colm 'Senior' and Colm Junior' Maloney. With a trade counter, showroom, and strong industry knowledge, they quickly became a trusted name in the trade.

In 2018, a fire destroyed their original unit. The team relocated to Unit 1 at Epsom Business Park in 2019, continuing to serve customers with the same commitment and reliability. In 2021, they proudly returned to their rebuilt original home, Unit 5 – now also a Daikin Sustainable Home Centre.

Colm 'Senior' sadly passed away in 2022, but his legacy lives on through Colm 'Junior' and the next generation, with Rian Maloney joining the business in 2023.

A huge thank you to our customers for your support over the years. We remain dedicated to expert advice, independent service, and a future focused on innovation and sustainability.

Here's to the next 10 years!

## Hotun Detect Audible & Visual Alarm System for Hotun Tundish

The hotun detect from RA Tech has been specifically designed alongside their innovative hotun tundish range to give an immediate audible and visual alert if there is something wrong with the heating or hot water heater system causing an overpressure (or temperature) and the relief valve to start to discharge water.

The consumer can then seek help to identify the fault with the system and then make effective and timely repairs saving water and energy and making sure that their heating or hot water system is functioning safely and satisfactorily.

Hotun products eliminate foul odours or gases from waste pipe backflow, ensuring a pleasant environment. With enhanced visibility, maintenance is a breeze as it can be cleaned in seconds without pipeline dismantling. Additionally, it's WRAS approved, meeting Building and Water Regulations for various systems.

**£8.66**

2292364

### IN-100 Concentrate Corrosion Inhibitor

Prevents corrosion, hard water limescale precipitation and is essential for protecting hot water heating systems and maintaining operational efficiency.

504223

### IN-200 Boiler Noise Silencer

For established central heating systems. Restores and maintains heat exchanger efficiency in hard water areas and stops boiler noise by re-dissolving limescale precipitation on heat exchanger surfaces.

504230

2292365

### IN-300 Concentrate System Cleaner

For commissioning new central heating systems. Removes installation foulants, flux, grease and debris suspended in water by flushing. Should be left in system minimum 2 hours, maximum 2 weeks.

504247

### IN-400 Sludge Remover

For the regeneration of established heating systems. Removes (black) iron oxide corrosion products by flushing and restores circulation and system performance. Should be left in system minimum 2 hours, maximum 2 weeks.

504254

2292366

### IN-500 Concentrate Leak Sealer

For the internal sealing of inaccessible leaks & weeping joints. Forms a soft seal within 24 hours. Will not cause blockages in circulatory pumps or air vents.

504261

### IN-600 Heat Optimiser

Improves heat transfer. Saves up to 15% on heating costs.

504278

300ml Aerosol  
**£14.65**  
Treats 120 Litres (12 Rads)

### IN-700 System Biocide

Prevents bacterial growth in low temperature systems. Prevents bacterial and fungal growth. Suitable for under-floor and heat-pump systems.

504285

### IN-800 Power Cleaner

Heavy duty cleaner for powered flushing of sludged systems. For the regeneration of sludged heating systems using powered flushing equipment. Assists in the rapid removal of iron oxide corrosion products.

## Ecomag Magnetic Filter 22mm

The Instinct ECO-Mag is a quick fit magnetic filter that traps magnetite and debris to prevent system breakdowns. It installs easily on any central heating setup, ideally positioned between the last radiator and the boiler, and features full bore isolating ball valves for fast, hassle-free servicing. Great for new installs or retrofits.

### KEY FEATURES:

- 12,000 gauss removable magnet
- Max temperature: 120°C
- Manual air bleed
- Max pressure: 6 bar
- Installation/service date wheel
- Supplied with spare washers & O-rings
- Durable POM non-ferrous body
- 360° installation

**Radbot 1 Smart Energy Saving Thermostatic Radiator Valve**

Radbot 1 is a smart heating control that helps cut your energy bills by up to 30%. It creates room by room heating zones by controlling individual radiators, automatically adjusting based on when each room is in use. No need for apps or manual scheduling as it learns your routine using light and humidity. Compatible with wet central heating systems, including gas and oil boilers and heat pumps.

Just fit, set and forget.

**Easy installation**

Simple replacement for standard thermostatic radiator valves (TRVs).

**Comfort boost button**

Provides 30 minutes of maximum heat.

## Pre-Insulated MLCP Coil Pipe

This pre-insulated MLCP coil pipe is WRAS approved and ideal for heating applications. Its advanced insulation ensures thermal efficiency, while the durable, flexible design resists corrosion and oxygen diffusion. Fire rated to BS EN13501-1 (BL-S2-D0 for insulation, E for full assembly), it's a cost-effective, easy-to-install solution for residential and commercial use.

## COMING SOON - The Low Carbon Heating Guide

Get ready to explore our brand-new Low Carbon Heating Guide, your essential resource for renewable technologies, underfloor heating and press fittings.

Whether you're installing new systems or improving your current ones, this guide offers a comprehensive collection of our low-carbon solutions - all in one place.

Equip yourself with cutting-edge products designed to enhance energy efficiency, support sustainability, and future-proof your heating systems.

***Keep an eye on our socials for the latest updates and launch details, and check our website regularly to be the first to access the guide.***

## Get MCS Certified - The easy way!

Tucker French now offers full support through the MCS Umbrella Scheme, from heat loss calculations and DNO applications to commissioning and handover packs, we handle the paperwork so you can focus on the install.

- ✓ ASHP DNO Applications
- ✓ System Performance Estimates
- ✓ Full MCS Handover Pack
- ✓ 2 & 5 Year Warranties

**Find out more today - speak to your local branch or visit our website for details.**

**Fast. Compliant. Hassle-free!**

## Air-To-Water Heat Pumps

Daikin leads in heat pumps with R32 refrigerant, which has a lower Global Warming Potential, higher energy efficiency, and reduced CO2 emissions. R32 is also easy to recover and reuse, helping meet new CO2 targets.

## DAIKIN ALTHERMA HYBRID 1 R

This hybrid heat pump is ideal for boiler replacement in any home, connecting seamlessly to existing gas pipes for easy installation.

### Key Benefits

- Heating, cooling and hot water in one unit
- Up to 15% more efficient than traditional boilers
- Connects to existing gas piping for quick and easy installation
- Smart control via Onecta app, Google Assistant and Amazon Alexa
- Can connect to air-to-air heat pumps

### Hybrid 1 R-Split

## Empower your workforce with specialist training from Daikin

Our product training elevates standards, establishes industry benchmarks, and enhances your expertise in both products and services. You'll receive top-quality, personalised training, with options including e-learning, live webinars, or hands-on sessions led by instructors. Instructor-led courses are available at our regional training centres in Bristol, Woking, Birmingham, Manchester, and Glasgow, each equipped with the latest products for an optimal learning experience.

### Why Train With Daikin?

#### Blended Learning

Our flexible blended learning journey maximises your time spent training, whilst minimising your time out of work.

#### Live Webinars

Live webinars are led by specialist Daikin trainers, delivering that personal touch when learning remotely.

#### Certification

An official Daikin Certificate is provided on completion – confirming the required skills, quality and effectiveness to meet Daikin's high standards.

#### Hands-On Training

Our instructor-led courses provide hands-on access to our latest products, along with professional training to ensure full product confidence.

#### E-Learning

E-Learning Online training courses are available at a time and location to suit you - 24 hrs per day, 7 days per week.

#### Join Sustainable Home Network

Become a member of the Sustainable Home Network and gain all kinds of rewards to treat yourself and strengthen your business. Join today and find out more at [daikin.co.uk/shn](http://daikin.co.uk/shn)

## Compress 5800i Heat Pump

### Key Benefits

- Ultra quiet with integrated diffuser
- F-Gas free fitting with rear facing connectors and monobloc design for easy and quicker installations.
- High performance flow temperatures up to 75°C for wider range of UK homes & SCOP up to 4.65
- R290 refrigerant has a low global warming potential score of only 3
- Sleek new design that will compliment its surrounds with all the style and maximum reliability you've come to expect from Bosch.
- Easy install 'plug and play' indoor solution is designed with installers in mind for faster installation with integrated micro-buffer, diverter valves, pumps and back-up heater
- Ability to use third-party cylinders and components

SIZE	PRICE
<b>4kW</b> 8738213464	<b>£3128.38</b>
<b>5kW</b> 8738213465	<b>£3294.00</b>

## Logic Air Heat Pump

The Logic Air monobloc heat pump delivers efficient, low-carbon heating and hot water for UK homes. Easy to install and use, it pairs seamlessly with our hot water cylinder and Halo Air thermostat, and is backed by UK-based support 364 days a year.

### Key Benefits

- Highly efficient: SCOP up to 5.19\*
- Compatibility: radiator and underfloor heating systems
- Intuitive control: smart weather compensating controls
- Low carbon refrigerant: zero ozone depletion and low global warming potential
- Solar PV compatible
- Monobloc technology enables easy installation and servicing
- Domestic hot water: hot, efficient and fast re-heat times with the Ideal heat pump cylinder range

SIZE	PRICE

## NEW uniSTOR High Recovery Slimline Cylinder Range

The new uniSTOR high recovery slimline cylinders are compact, high-performance units that save space while delivering reliable hot water. Compatible with the full Vaillant heat pump range and all domestic boilers, they enhance efficiency and integrate seamlessly with Vaillant systems. A purpose-built 30L patented buffer store can be installed above or below the cylinder to add volume, enable hydraulic de-coupling, and boost heat pump efficiency during peak demand. Control your hot water anytime with the myVAILLANT app.

## GPF PUSH-FIT PLASTIC PLUMBING SYSTEM

Davant GPF, a flexible plumbing system from Davant Products, is designed for professional installers seeking quality, simplicity, and durability at a competitive price.

The GPF PB system offers various pipe and fittings sizes (10mm, 15mm, 22mm, and 28mm) for hot and cold plumbing and central heating systems. It's suitable for sealed and open vented systems, built to endure high temperatures and constant pressure, with excellent thermal conductivity and corrosion resistance for central heating.

## MONARCH WATER

Monarch Water softeners are known for their high quality and reliability, offering effective protection against limescale and delivering luxury soft water from the very first use. Each unit is built with high-efficiency technology, including Opti-Brining — a smart system that monitors usage to reduce salt and energy consumption. Models such as the Midi and Ultra are WRAS approved, ensuring excellent quality and durability. Monarch also offers peace of mind with a 2-year labour/breakdown\* and 7-year parts warranty\*.

### Monarch Water Softener

Ideal for 7-16 people, this high-capacity softener offers up to 75 lpm flow and 6,430L per regeneration at 300ppm. Smart microprocessor adapts to water use.

**£979.37**

GS6004HE

### Monarch Midi HE Water Softener including kit

#### Key Features

- WRAS approved for top-tier quality
- 7-year parts & 2-year labour warranty (with registration & servicing)
- Opti-Brining with HE resin – only regenerates used resin
- Customer Protect Programme: leak detection, 2am regeneration, smart usage tracking, auto time updates
- High flow rates, low pressure drop
- FreeFlow valve – up to 83 lpm
- Uses tablet salt only
- Includes fitting kit & hardness test kit
- Rapid-fit bypass – up to 80% fewer install parts
- Robust, easy-install design

**Masters XXIE Extended  
Pipe Bender - 22mm**

The 22mm XXIE, with its extended arm, provides greater mechanical advantage compared to the 22mm XXII, making bending even easier.

Included are two extension handles that thread into the bender's arms. The Monument 1322Extended-XXIE produces a bend radii similar to the Monument 2600K combi bender.

The 22mm XXIE features two rubber feet to protect floors during use. They boast aluminium die-cast formers, CNC turned steel handles with knurling for improved grip, and integral replaceable nylon guides.

## Maloney's Sustainable Home Centre

Our dedication to sustainable energy is exemplified through the Daikin Sustainable Home Centre. Homeowners nationwide are seeking greener heating solutions for their homes. The Sustainable Home Network program provides customised solutions for businesses of all sizes, regardless of their stage in adopting renewable heating practices.

Maloney's, in collaboration with Daikin, has become a Sustainable Home Centre, unveiling a new showroom in Epsom. The showroom features a comprehensive range of renewable heating, hybrid solutions, and air purification solutions. Additionally, our fully operational training facility is designed to support installers in gaining the expertise required for installing and maintaining advanced, low-carbon technologies that contribute to environmental conservation.

## bathroom gallery

Elevate your home with a bathroom that's as unique as you are. At Bathroom Gallery, we specialise in crafting luxury, bespoke bathrooms tailored to your individual style. Whether you lean towards contemporary chic or embrace timeless classics, we have the expertise to bring your vision to life.
