

MALONEY'S

PLUMBING & HEATING MERCHANTS

BATHROOM COLLECTION | AUTUMN 2023

INSTINCT®

Welcome to our Autumn 2023 Bathroom Collection

We are delighted to bring you this season's INSTINCT catalogue displaying a comprehensive range of bathroom products, from traditional to contemporary designs, together with innovative products to cater for all your bathroom needs.

About us

Founded in 2015, Maloney's are a specialist Plumbing and Heating merchant in Epsom Surrey, supplying the trade and the public with top quality bathroom products.

We pride ourselves on excellent customer service, competitive pricing and experienced knowledgeable staff ready to help and assist you with all your plumbing and heating requirements.

New transactional website

Our new transactional website is now live! With thousands of products available from a huge range of manufacturers.

Click and Collect from
your local branch.

MALONEY'S
PLUMBING & HEATING MERCHANTS

There's so much to celebrate

For 10 years Instinct has delivered a comprehensive quality range of bathroom, plumbing and heating products sold exclusively by a select group of leading regional merchants & showrooms across the UK.

Ever since its inception the Instinct brand ethos has always remained true to its principles.

Deliver high-build quality products

Products to be well designed and engineered

Products to be styled by leading industry designers

Products to incorporate cutting-edge technology where possible

Products must represent good value

Products to be supported by all necessary regulatory requirements

Whether you are looking for something to complement your existing or new bathroom, the Instinct product portfolio will inspire a high-quality bespoke solution for you.

Now isn't that worth celebrating.

on Basins & WCs

Adding the finishing touches to your fitted furniture creates a unified look and maximises the space available in your bathroom. All units have soft close hinges and basin units feature an adjustable shelf, removable back panel for easy pipe access and a 50mm plumbing void. Floor cupboards have a reversible door for ease of access.

Choose from 3 door styles in a range of contemporary finishes, work out which mix of units works best for your space and then add all the finishing touches. It's easy to plan your new bathroom, simply follow the step by step guide below.

1. Door Styles + Finishes

Choose your desired door finish in either 'slab', 'shaker' or 'J-Pull' style.

2. Combination + Depth of Units (see pages 42-46)

Assess the space you have available in your bathroom & work out which units you need. Choose from standard depth (353mm) or space-saving slim depth (218mm) units.

3. Handles (see page 47)

Choose your handle style from the 6 available options.

Fitted Furniture

4. Worktops (see pages 47-48)

Select a worktop from either our Strata solid surface or laminate options.

Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim depth units.

5. Panels + Plinths (see page 48)

Select the plinths to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

6. Mirrors + Wall Units (see page 49)

Choose a mirror and add any useful wall units.

7. Lighting Option (see page 49)

Select a stylish lighting option.

8. Sanitaryware (see pages 56-119)

Choose sanitaryware options from the wide range of semi-countertop basins and back to wall WC pans.

9. Co-ordinating Bath Panels (see page 49)

Select a co-ordinating bath panel.

10. Tap Options (see pages 196-243)

Complete your bathroom with an Instinct basin mixer.

11. Co-ordinating Cabinets (see page 50)

Select a co-ordinating cabinet.

12. Co-ordinating Mirrors (see page 51)

Select a co-ordinating mirror.

Fitted Furniture Selections

To make things easier to order we have gathered together below some very commonly used configurations of fitted furniture. These cover three furniture widths, a 1000mm, 1200mm or 1500mm run. Each configuration is available with either contemporary slab, classic Shaker-style or J-Pull Doors and with a number of finishes in each style.

Make sure you select the correct left or right hand basin option for your room layout, and pick the configuration which works best for you, in the style and colourway of your choice. Then simply order the single code which includes all the components you need.

***Note:** price does not include Keros Back to Wall WC, Seat, Concealed Cistern and Flush Button. To order separately, see pages 81-82 Keros for WC and Seat, page 196 for Basin Mixer choices, page 123 for Concealed Cistern and page 126 for Flush Button.

Slab Style – Slim

Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

Pans + Bidets

Rimless

Rimless flushing, hygienic and easy to clean.

Comfort Height

The comfort height option sits several centimetres taller than standard WCs.

Short Projection

Space saving short projection pans, ideal for small washrooms.

Air Gap

Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

Right Hand Flush

Ergonomically positioned cistern handle for convenient flushing.

Full Flush Volume

The total volume of water discharged from the flushing system during a flush cycle.

Dual Flush Volume

The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

Eco Dual Flush Volume

A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

Toilet Seats

Quick Release

Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

Top Fix Hinges

Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

Soft Close

The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

Toilet Seats
Page 118

Furniture

Soft Close Drawers

Soft close drawers used for a smooth, quiet closing action.

Pillar Cistern Units

Touch Controls

Multi function touch control with on/off functionality.

Baths

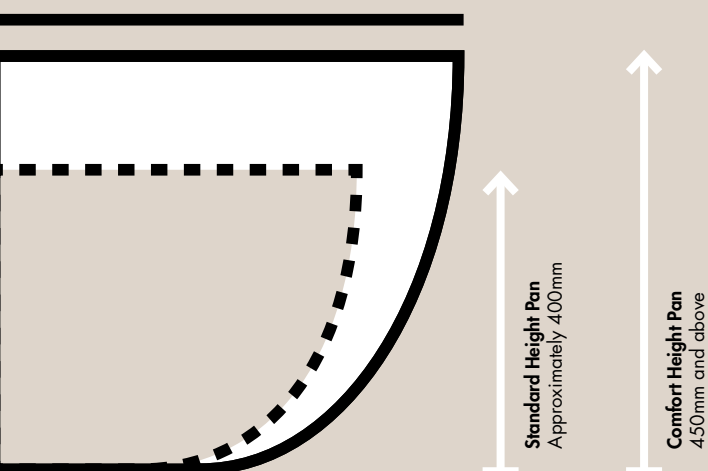

Water Capacity

Total number of Litres the bath can hold safely.

Comfort Height Pan. Short Projection Pan. What's the difference?

Comfort Height Pans

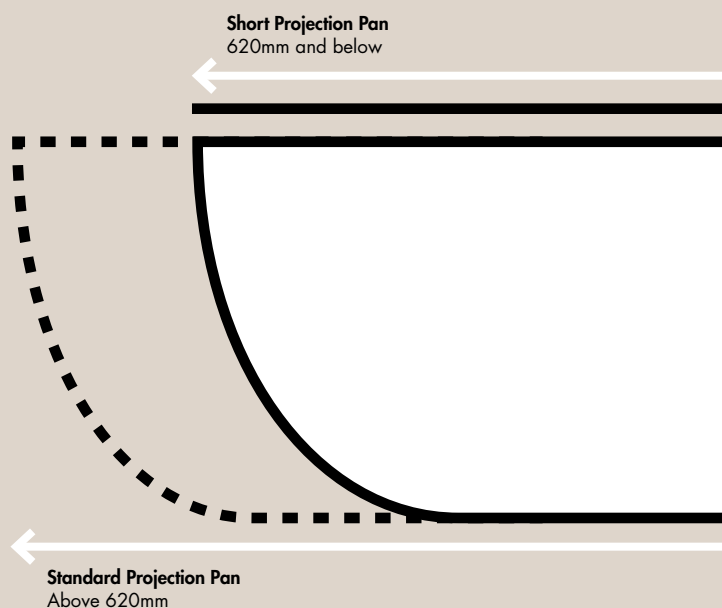

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm* and below (standard projection pans are typically above 620mm). A short projection pan is ideal for a small bathroom or cloakroom suite.

**620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 57 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.

Secure Fix – How Does it Work?

Scan to watch the Secure Fix installation video

1. Place the template

Place the template over the anchor pins on the pan.

2. Select the correct position

Select the appropriate hole by measuring the required distance from the template to front of pan or using the holes stated.

3. Insert the bolts

Insert the bolts into the correct holes and tighten.

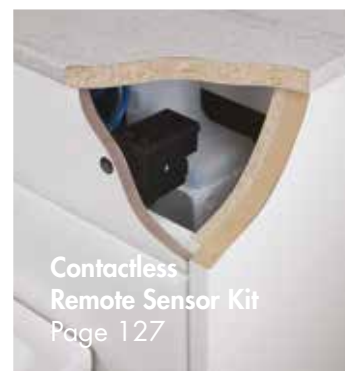

4. Cover & click

Add the cover plate and click the seat into place.

Flushing Features

There are many features in our flushing range. Use the icons to help choose the right option for you.

Guarantees

All WC frames, concealed cisterns, flush plates, flush buttons and contactless flushing products come with a five year guarantee.

Back To Wall Pans

Can be used for back to wall pans.

Wall Hung Pans

Allows wall hung pans to be used.

Wall Hung Bidets

Can be used for wall hung bidets.

Air Gap

WRAS approved Air Gap inlet valve included.

Dual Flush Volume

The Dual Flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

Easy Install

Our concealed cisterns and WC frames are designed for easy maintenance and installation.

Insulation

The Instinct concealed cistern jackets are fully insulated.

Low Battery Alarm

Alarm activates when batteries are running low.

Contactless Controls

Infrared switch allows control with the wave of your hand.

Bath Screen Features

There are many features in our bath screen range. Use the icons to help choose the right option for you.

Ten Years + Lifetime Guarantees

Our Instinct 8 bath screens have either a 10 year or lifetime guarantee. Instinct 6 bath screens all come with a lifetime guarantee.

Glass Thickness

All our bath screens feature toughened safety glass. Safety glass is around five times stronger than normal glass.

Reversible

The bath screen is reversible for left or right hand applications.

Rotates Through 180°

All or part of the bath screen rotates through 180° for easier access.

Easy Clean Glass

Designed and manufactured to present easy cleaning ability to ensure your bath screen lasts for many years.

Ultracare Glass Protection

Pre-coated with Ultracare, a unique glass protection system designed to prolong the life of your bath screen.

Bathroom Taps + Accessories Features

There are many features in our bathroom taps and accessories range. Use the icons to help choose the right option for you.

Ten Year Guarantee
All bathroom taps come with a ten year guarantee.

System Pressure
Recommended minimum system pressure.
Low Pressure at 0.1 Bar, Medium pressure at 0.5 Bar, High pressure at 1.0+ Bar.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

Flow Straightener
Supplied with flow straightener outlet option.

Flow Aerator
Supplied with water saving aerator outlet. The device controls the amount of water that flows through the tap as it mixes water with air.

Eco Aerator
Further limits the flow of water and reduces consumption. The dual core aerators limit maximum flow to 5 l/min for bathroom products whilst comfort of usage remains the same.

Single Flow
This single tap style mixes hot and cold water in the body of the tap.

Flexible Hose
Supplied with flexible hose for easy installation

Cold Open
The cold open cartridge system ensures mixer opens with cold water only avoiding the unnecessary use of hot water to deliver energy savings.

Shower Kit
Bath shower mixer supplied with a handy separate side shower.

Backnut
Supplied with either a brass or plastic backnut.

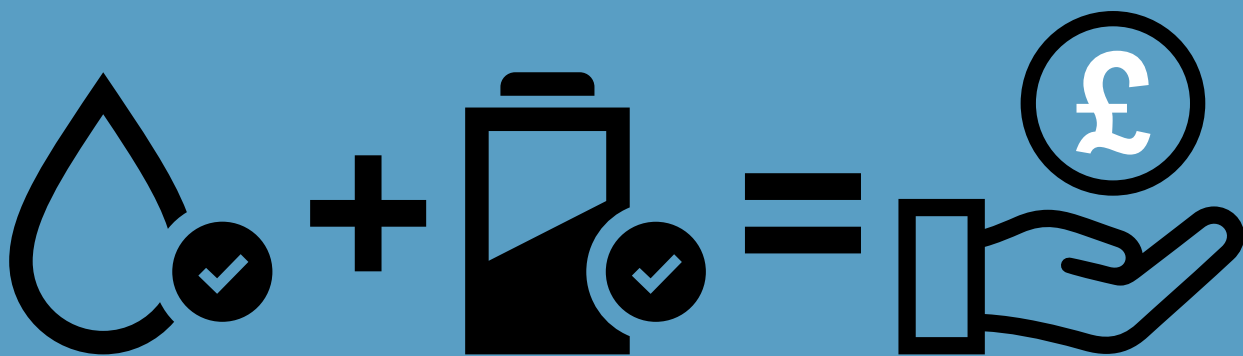

Waste
Tap supplied with either a click or pop up waste.

Flow Rate – X.X l/min

Flow Rate
Flow rate shown is based on testing conducted against published pressure using the following criteria.
LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

Save Water. Save Energy. Save Money.

Did you know using water more efficiently can reduce your energy bills?
Heating hot water accounts for 25% of home energy usage.
Using water efficiently can reduce your energy bills.

Instinct recognises our responsibility, and the role we play, in educating the end user to make an informed choice, when selecting water and energy using bathroom products.

To aid our consumers, Instinct has joined the Unified Water Label. The aim of the Unified Water Label for consumers is an easy to identify and simple to understand label detailing water consumption to allow for an informed choice.

We also believe design and engineering can play their part. At Instinct, our aim is to promote the use of smart technology for products that deliver on performance whilst providing consumers with sustainable products.

Please look out for these smart eco technology icons in our bathroom taps pages.
 Alternatively, use the range selector on page 197 and discover which of our Instinct bathroom taps will help you save water.
 For further information on the Unified Water Label please visit www.uwla.eu

Kitchen Taps Features

There are many features in our kitchen taps. Use the icons to help choose the right option for you.

Ten Year Guarantee
All kitchen taps come with a ten year guarantee.

System Pressure
Recommended minimum system pressure.
Low Pressure at 0.1 Bar, Medium Pressure at 0.1 Bar, High Pressure at 1.0+ Bar.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

Contactless Controls
Infrared switch allows control with the wave of your hand.

Flow Straightener
Supplied with flow straightener outlet option.

Flow Aerator
Supplied with water saving aerator outlet.

Eco Aerator
Further limits the flow of water and reduces consumption.

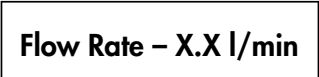

Pull Out Spout
Pull out spouts feature a spray head that can be pulled directly out of the tap body.

Flexible Hose
Supplied with flexible hose for easy installation.

Backnut
Supplied with either a brass or plastic backnut.

Flow Rate
Flow rate shown is based on testing conducted against published pressure using the following criteria.
LP at 0.2 bar. MP at 0.5 bar. HP at 3 bar.

Fast Fix
For a quick and easy installation that allows assembly by hand, without any tools.

Cold Open
The cold open cartridge system ensures mixer opens with cold water only avoiding the unnecessary use of hot water to deliver energy savings.

Soyea Chef Plus

Guarantees

10 Years
on Kitchen Taps

Pull Out Spout
Allows spout to be used in any direction

Single Lever
Easy to use with just a single lever controlling the flow and temperature of the water

Dual Spray Outlet
Choose between a high pressure or low pressure spray

Shower Features

There are many features in our shower. Use the icons to help choose the right option for you.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

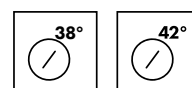

Fast Fix
For a quick and easy installation.

Single Outlets
These shower valves supply water to just a single outlet such as a fixed shower head or hand shower.

Twin Outlets
Come with two separate heads, allowing you to enjoy the most relaxing shower possible.

Thermostatic Valve
Thermostatic control means the temperature of the water is regulated to prevent any nasty hot or cold surprises if someone else in your home is using the water.

Cool Touch
Featuring safe touch valve bodies and anti-scald thermostatic technology.

Slide Rail Kit
Consist of a shower head, a shower hose and a rail on which the shower heads slides up and down.

Telescopic Rail Kit
Consist of a shower head, and a rigid riser rail on which the shower heads moves up and down.

Single Function Handset
A single spray function is available on this shower head.

Multiple Function Handset
Multiple spray settings are controlled individually on these shower heads.

Wetroom Solutions

The perfect way to create a wetroom – tailored to your own style

The collection features our Wetroom Panel options, which can be fitted to our low level shower trays or straight to the floor to create a true wetroom.

We present a number of panel sizes and options, to help you create your perfect bathroom sanctuary. Included are the various configurations that are available to suit you and your bathroom.

All Panels are 2000mm high and available in either 8mm glass thickness or 10mm glass thickness.

Selecting your configuration

Select the size of panel you require in either 8 or 10mm glass thickness; select your configuration; select between a fixed or pivoting deflector panel and select your desired bracing bars.

Elements wetroom
feature video

Build your Bathroom & wetroom in 3 simple steps

We've made it as simple as possible to achieve your perfect wetroom.

With a comprehensive range of shower trays and complementary shower screens plus a selection of tile backer boards for wall and floor, you can create an aspirational space that combines cutting-edge design with industry-leading waterproofing properties.

After Tiling

1 Waterproof your bathroom behind the tiles

We recommend using our Tile Backer Boards and Waterproofing Components for a fully waterproof installation on the walls and floors.

2 Create beautiful wetrooms

Designed and manufactured in the UK specifically for the UK market, Elements wetroom shower kits are the ultimate way to create the perfect secure wetroom.

Whether your requirement is fully level access or raised wetrooms we can accommodate your needs.

Supplied with full installation kit and high capacity drain.

3 Design waterproof recessed shower storage

Designed for pre-wall installation to make excellent use of space otherwise lost. Manufactured from the same high grade material used to produce our waterproofing building product range, our selection of recessed storage is fully waterproof and ready for installation.

Before Tiling

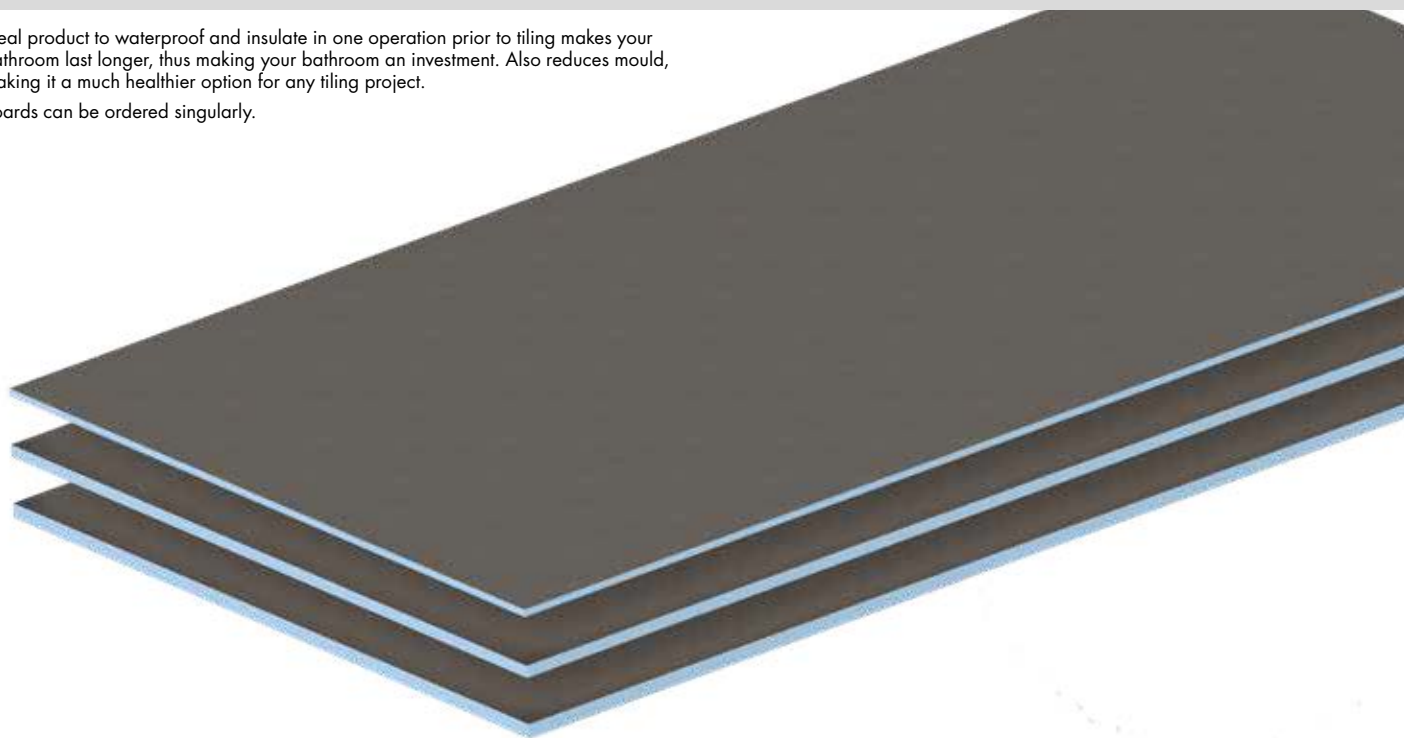

Wetroom Systems

Tile Backer Boards

Ideal product to waterproof and insulate in one operation prior to tiling makes your bathroom last longer, thus making your bathroom an investment. Also reduces mould, making it a much healthier option for any tiling project.

Boards can be ordered singularly.

Wetroom Systems

Raised Wetroom Kits

Square Drain

130mm

The Concept 1 & 4 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

Dimensions –
130(h) x 1850(w) x 900(d) mm (PHGWR-KS15-1809)
130(h) x 1850(w) x 750(d) mm (PHGWR-KS15-1807)

PHGWR-KS15-1809	Concept Kit 1	£946.00
PHGWR-KS15-1807	Concept Kit 4	£925.00

50mm

The Concept 3 & 6 kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 50mm raised wet area within the bath or shower room.

Dimensions –
50(h) x 1850(w) x 900(d) mm (PHGWR-KS05-1809)
50(h) x 1850(w) x 750(d) mm (PHGWR-KS05-1807)

PHGWR-KS05-1809	Concept Kit 3	£811.00
PHGWR-KS05-1807	Concept Kit 6	£779.00

Installation & Drainage Kit

All our shower tray kits come complete with a full installation kit.

Installation & Drainage Kit includes:

Pro-SEAL Premix, wood floor primer, square horizontal shower waste, Fix-KST, Fix-MD, waterproof tape, waterproof internal corners, tile guide, paint brush, protective gloves, notched trowel.

Linear Drain 300mm

130mm

The Concept 1L & 4L is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

Dimensions –
130(h) x 1850(w) x 900(d) mm (PHGWR-K315-1809)
130(h) x 1850(w) x 750(d) mm (PHGWR-K315-1807)

PHGWR-K315-1809	Concept Kit 1L	£987.00
PHGWR-K315-1807	Concept Kit 4L	£977.00

50mm

The Concept 3L & 6L kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 40/50mm raised wet area within the bath or shower room.

Dimensions –
50(h) x 1850(w) x 900(d) mm (PHGWR-K305-1809)
50(h) x 1850(w) x 750(d) mm (PHGWR-K305-1807)

PHGWR-K305-1809	Concept Kit 3L	£863.00
PHGWR-K305-1807	Concept Kit 6L	£831.00

Installation & Drainage Kit

Shower Enclosure + Shower Seat Features

There are many features in our shower enclosure and shower seat range. Use the icons to help choose the right option for you.

Ten Years + Lifetime Guarantees

Our Instinct 8 shower enclosures have a 10 year guarantee. Instinct 6 shower enclosures all come with a lifetime guarantee.

Glass Thickness

All our shower enclosures feature toughened safety glass. Safety glass is around five times stronger than normal glass.

Reversible

The shower enclosure is reversible for left or right hand applications.

Bracing Bars

Contemporary designed bracing bar supplied for additional support to hold the glass panel in place.

Magnetic Door Strips

Magnetic seals provide a water tight seal on shower enclosure doors. These seals have sufficient magnetic strength that latches are not required.

Easy Install

Shower enclosures designed for a quick and easy installation.

Easy Clean Glass / Seats

Designed and manufactured to present easy cleaning ability to ensure your shower enclosure or shower seat lasts for many years.

Weight Limit

Shower seats are designed to safely hold a maximum weight limit.

Soft Open Seat

Soft open seats for a smooth, quiet opening action.

Wall Panelling Features

There are many features in our wall panelling range. Use the icons to help choose the right option for you.

Guarantees

The Multipanel wall panels have a 30 year guarantee. Mermaid wall panels have a 15 year guarantee and the Fibo wall panels have a 25 year guarantee.

Fully Waterproof

As you would expect, all wall panels are fully waterproof for your peace of mind.

Easy to Clean

Designed and manufactured to present easy cleaning ability to ensure your wall panels last for many years.

Quick to Install

Panels are designed for a quick and easy installation.

Can be installed over Tiles

A secure and cost effective solution for installation.

Hydrolock®

Almost seamless joint with Hydrolock. See page 329 for details.

Aqualock

Fibo's unique Aqualock wall system provides a 100% waterproof surface when used in conjunction with an approved seal.

Seamless Finish

Creates a smooth, uniform, seamless finish throughout your bathroom. Panels with postformed edges are available for end panels.

No Trims Required

Mermaid Elite panels are made using a unique 100% waterproof core, metal or plastic trims are not required.

Post-Formed

Mermaid Elite panels feature one finished radius edge and one tongue to link to T&G.

T&G

Mermaid T&G panels in 1200 and 600mm widths offer the flexibility for less waste and less cost.

Wall Panelling

About Multipanel – The UK's Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our collections are also Forest Stewardship Council (FSC C128180) and Made In Britain certified, meaning that they are made in the UK from sustainable materials, helping to protect our forests for the future.

Tiles, its time to move on.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

Hydrolock Installation

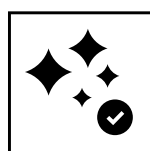

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Neutrals, Linda Barker, Heritage and Classic) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation – 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

Hydrolock® Joint

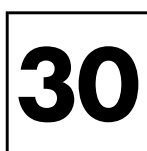

Why Choose Multipanel

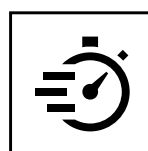

Easy to keep clean

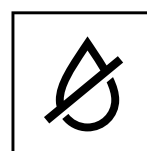

Almost seamless joint with Hydrolock®

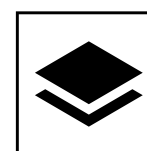

30 year warranty

Quick and easy to install

Fully waterproof

Can be installed over old tiles

Multipanel Profiles

The Tile + Pure Collections

new

Alpine White, Metro – The Tile Collection + Sage Green, Large – The Tile Collection

The Tile & Pure Collections share an inspired range of marble textures and new colours so you can create exciting and unique combinations for your new look bathroom

The Pure Collection includes on-trend designs and textures for a sleek, elegant look.

Renovate your bathroom with our stylish, neutral earth tones or add a touch of colour to your walls with our pinks and blues. If you're looking to recreate that spa-look instead, check out our mineral décors and bestselling marble effects.

Combine your colour choice with a pattern from our Tile range in either Large, Herringbone or Metro styles.

If you love the appearance of traditional tiles but are tired of living with the maintenance of grout, the Multipanel Tile Collection is what you have been waiting for.

The Tile Collection is the first tile-effect wall panel to be Made in Britain and FSC®-certified. Using the very latest in manufacturing technology, we etch a 2.5mm pale grey grout line into our Tile Collection décors, creating a beautiful tile effect with laser precision. Unlike traditional tiles, these tile effect panels are simple to clean and easy to maintain.

25 Years
on Fibo Wall Panels

About Us

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of tile-effect wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the 'click' system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Smokey Blue, Metro Brick, Urban Tile Effect Collection

Did you know?

Research has revealed that Fibo's leading waterproof wall panel system has a carbon footprint that is 37% lower than tiles. This is in part due to Fibo sourcing their plywood from sustainable PEFC certified sources. So, when you choose Fibo wall panels you can be confident that you're choosing the greener option and reducing your carbon impact. Plus, Fibo wall panel surfaces are all antibacterial so there's no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?

Designed & made in Norway

Accessories

Choose from the Fibo range of accessories to ensure the perfect finish every time. Ideal for use with Fibo wall panels, our accessories create a quicker, trouble-free installation.

Fibo Seal

A waterproof, hybrid polymer sealant available in either grey or white. 1 tube of sealant is enough to seal all joints on up to 4 panels. Size – 290ml.

£14.00

Fibo Adhesive

With high tensile strength, this hybrid polymer is the perfect adhesive for use with wall panels. Size – 290ml.

£14.00

Wall Panelling

Contemporary Tile Effect Collection

Aqua Mint, Pop of Colour, Contemporary Tile Effect Collection

Contemporary Tile Effect Collection

Fibo's tiled panels are groutless, meaning there is no mould, and no mess (because they're not really tiles!). Life is too short for cleaning.

Dimensions – 2400(h) x 600(w) x 10.2(d) mm

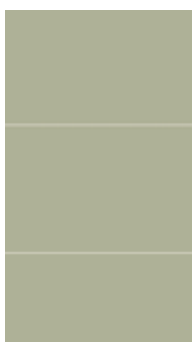

From £213.00

Elements

Standard Element IP55

A benchmark element to suit each size of product.

PHG-EOST	Electric Only	£275.00
PHG-DFST	Dual Fuel	£189.00

Heat Sensor Element IPX5*

An electronic temperature sensor control.

PHG-EOHS	Electric Only	£412.00
PHG-DFHS	Dual Fuel	£340.00

*Optional cover shroud available PHG-AC040, ask for details.

Remote Controlled Heat Element IPX4 NTC – Negative Temperature Coefficient Technology

Remote controlled programmable element for adjustable temperature control via App or remote control (see below).

SEE005-0300CP	NTC IPX4 300W	£305.00
SEE005-0600CP	NTC IPX4 600W	£315.00

Remote Control

Remote control for heat element IPX4 NTC.

SEE005-REMOTE	£80.00

Electric Underfloor Heating Features

There are many features in our electric underfloor heating range. Use the icons to help choose the right option for you.

Touch Controls

Multi function touchscreen providing effortless control at your fingertips.

Customise Display

Personalise with photo backgrounds, the only underfloor heating thermostat with this ability.

Colour Display

Clear graphical display makes any adjustment quick and easy. Choose the display style that suits you best – wide choice of screen themes.

Mono Display

Easy-to-use interface and intuitive design enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs.

WiFi Control

Allows you to link your thermostat with your home's existing Smart technologies such as the Amazon Echo or Google Home.

App Control

SmartGeo is a unique technology developed by Warmup and built into the MyHeating App that uses an advanced algorithm to understand the most efficient heat settings for your home.

Compatible with Smart Devices

Monitor your energy + cost graphs on mobile, tablet and desktop.

IP20 Rated

The thermostat is touchproof and will be resistant to dust or objects that are over 12mm in size. However, it has no protection whatsoever against water.

IP33 Rated

The thermostat is protected from tools and wires greater than 2.5mm. Protected from water spray less than 60 degrees from vertical.

Introduction

Electric Underfloor Heating

A cleaner, smarter way to heat your home

Warmup's electric underfloor heating systems are highly suitable for refurbishment projects and nearly all electrical systems can be fitted onto existing subfloors and work with almost all flooring finishes.

Electric Underfloor Heating is a cleaner, more efficient way to heat a home. Floor heaters require much less energy to reach optimal comfort temperatures than traditional centrally-heated radiators and when installed in conjunction with Warmup's Insulation Boards and a Smart Thermostat, you can expect huge savings on heating bills too.

Benefits

Warmup Underfloor heating transforms your room into a sanctuary of warmth.

Design Freedom and Low Maintenance

With no bulky radiators to take up valuable wall and floor space, our systems are a designer's dream.

Suitable for Every Room Type

Thanks to the availability of a wide range of products and systems, there is a solution for virtually any project type whether new-build, refurbishment, retrofit, or renovation.

Cost Savings and Increased Energy Efficiency

Zoning your house with underfloor heating is simple, and unlike traditional systems that run all rooms at the same time, you can set the heating for individual rooms where and when you need it.

Comfort through Even Heat Distribution

Underfloor heating spreads warmth over the entire floor area using low-temperature radiant heat, rather than the high-temperature "point heating" associated with radiators.

Reducing Heat Loss & Energy Consumption

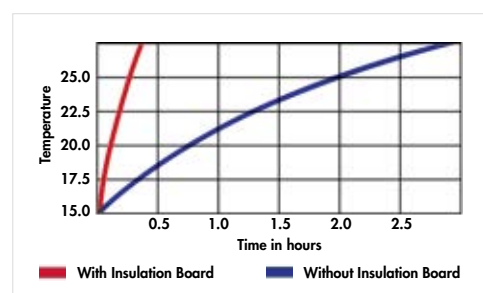

There are several ways to reduce energy consumption and heat loss. These include:

- Improving the insulation of the property (reduction of conduction losses)
- Reducing air leakage (reducing convective losses)
- Reducing energy consumption by using efficient heating methods

The overall heat loss can be decreased by looking at all of the above and by adding insulation or by ensuring that there are no gaps in the existing insulation. For under-floor heating, insulation boards are essential in reducing heat loss to the subfloor and ensuring a fast heat up time.

Running Costs

Underfloor Heating can offer substantially lower running costs compared with traditional central heating. Running costs can vary depending on your home's design, how well insulated it is, what energy tariff you are on and how you control and monitor your home's heating.

Running Time

Room Type	Heated Area	AM	PM	Winter Cost*
Bathroom	4m ²	2hrs	1hr	£24.26
Kitchen	5m ²	1hr	2hrs	£30.33
Lounge	15m ²	0hrs	3hrs	£85.27

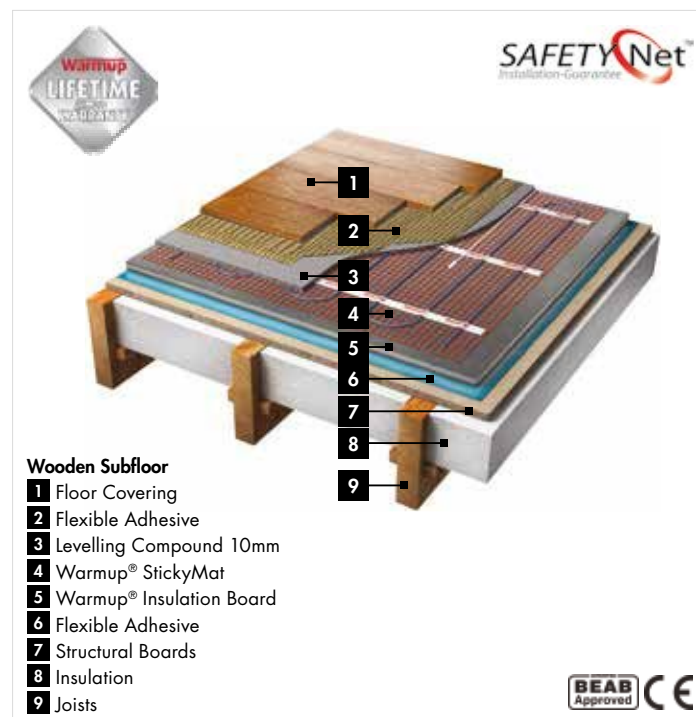

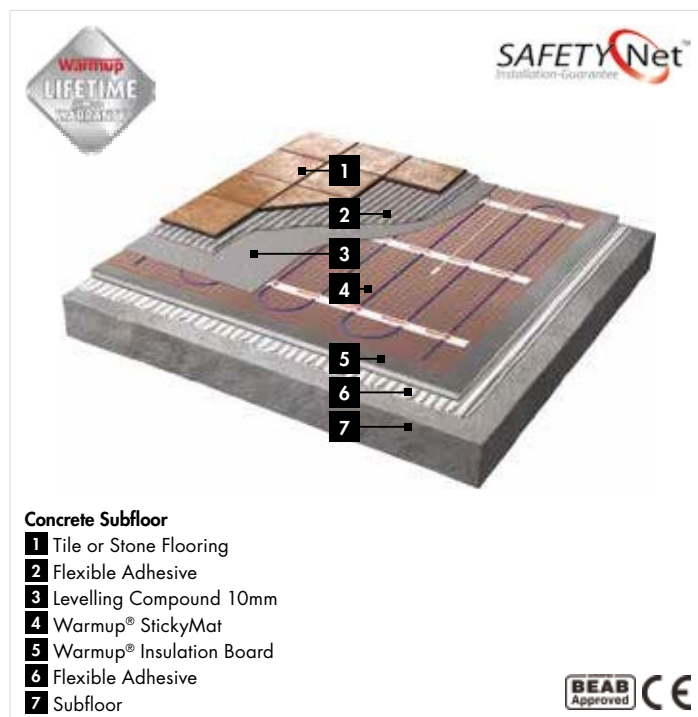

*Assumptions: 12.66p/kWh - system on 6 months (182 days) per year. System installed on 10mm Warmup® Insulation Board. **Avg. running cost after initial heat-up period = 0.85p/m²/hr. For more details visit www.warmup.co.uk

Introduction

Applications

Underfloor Heating Solutions for any Project. Radiant heating is compatible with almost all floor finishes and room types in your house.

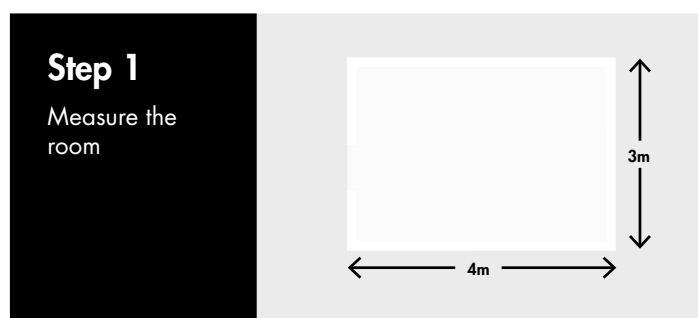

Insulating your floor prevents the thermal mass from escaping downwards, significantly reducing the amount of heat absorbed by the subfloor.

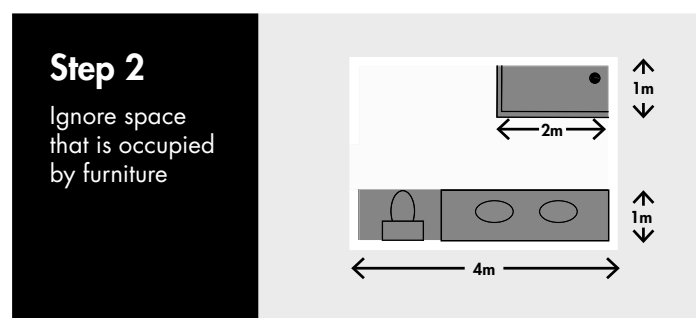

4 Simple Steps To Calculate The Area For Electric Floor Heating Systems

First, determine the available room floor space. This is the total amount of floor area, reduced by the area occupied by fixed objects, i.e. kitchen cabinets, bath, etc.

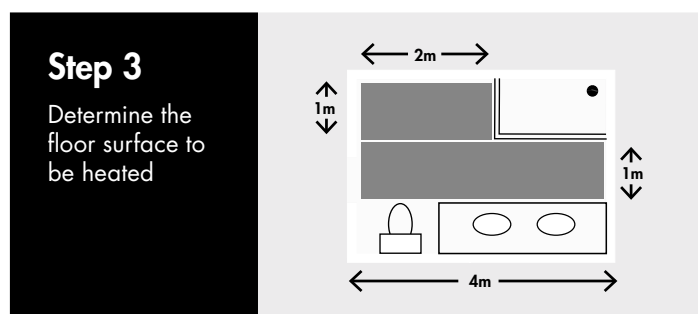

You only need to heat the area you will walk on.
We advise you to place at 5 centimetres away from the walls.

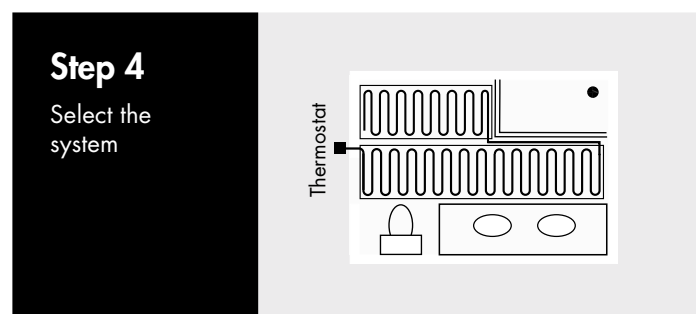

Work out the total floor area.
If the overall space is rectangular in shape, for example 4m by 3m, you only have to multiply both numbers, giving you **12m²**

Calculate how much of the floor space is occupied by fixed objects, such as shower tray, sink, etc.
Start with the big items and finish with small items.
Area occupied by furniture: $4\text{m}^2 + 2\text{m}^2 = 6\text{m}^2$

From step 1 and step 2 you now know how much fixed space you need:
Step 1: 12m² Step 2: 6m²

Now calculate the amount of free floor space for your Warmup cable or mat:
Surface to be heated: $12\text{m}^2 - 6\text{m}^2 = 6\text{m}^2$

DCM-PRO

DCM-PRO

DCM-PRO Cable

The DCM-PRO is the fastest solution for the installation of a heated decoupling system in all areas, installing electric underfloor heating in minutes with less tile adhesive because of its self-adhesive backing. The self-healing decoupling layer of the DCM-PRO mat protects floor finishes from damage. The layer contracts and expands to deal with structural movements in subfloors due to seasonal changes, preventing damage from occurring to floor coverings.

DCM-C-1	DCM-Pro cable 150W 10.9m for 1m ² coverage	£126.00

Going green

We, as Instinct, have a responsibility to the environment. Our aim is to have 100% recycled packaging and continue to work with industry bodies to help customers use their water more efficiently, therefore reducing energy bills and ultimately carbon emissions.

Where required our Instinct products are individually and legally tested to ensure compliance with CE and UKCA Marking. This not only covers material quality but also lifecycle, product impact testing, water integrity and traceability of manufacture.

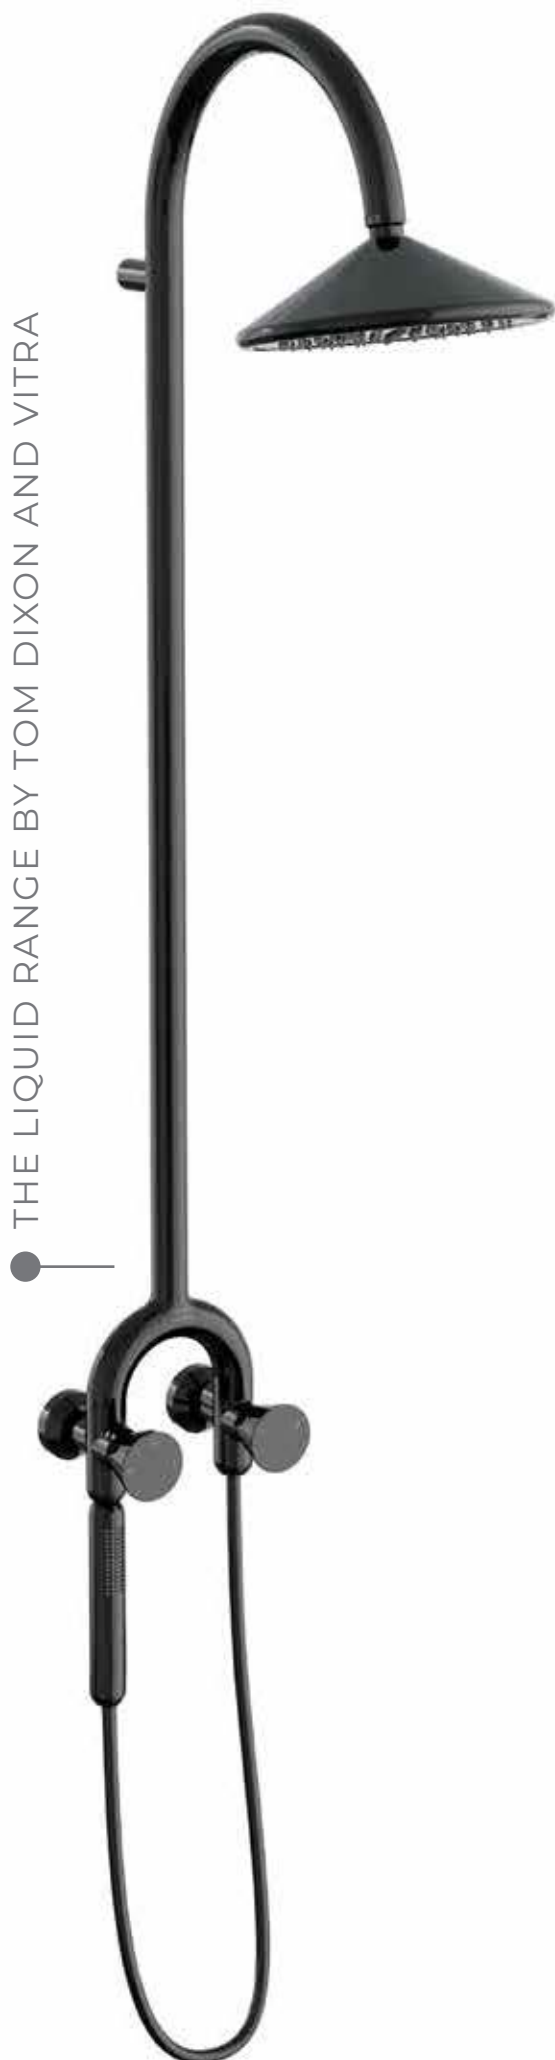

When it comes to the paper used in the production of this brochure or the wood used in our Wall Panels and Furniture, we have sourced as many products as possible with an FSC® (Forest Stewardship Council®) label or PEFC (Programme for the Endorsement of Forest Certification) accreditation. The FSC® label guarantees that the product originated from managed forests, recycled paper or a combination of both. Products carrying the FSC® label are independently certified to assure that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

As a brand, Instinct is committed to protecting the environment and is constantly exploring ways it can improve on this.

Small steps, big change.
