Boiler Plus compliant with Vaillant controls

ecoFIT pure

The ecoFIT pure range of boilers are ultra-quiet in operation and has a small footprint, proving total flexibility of siting. The rear and top flue option means this boiler range is the perfect solution for fitting inside a standard kitchen cupboard unit.

The automatic purging assistance and high specification, aluminium heat exchanger make for a lightweight installation.

High quality and high efficiency, together with the complete availability of spare parts and the easy accessibility of the unit layout means the ecoFIT pure is easy to maintain too.

IT'S ALL IN THE DETAIL

No gas? No problem.

Strom Electric Boilers offer a practical, low-carbon alternative to fossil fuels for residential and commercial installations.

Heat Only Boilers

The Strom Electric Heat Only Boiler is a compact, space-saving solution with only the essentials built in, allowing pumps and expansion vessels to be installed externally. The Pre-Plumb version combines two units for fast installation with minimal plumbing and electrical work, delivering heating and hot water quickly while cutting costs.

wilo

NEW NovaCON Condensate Lifting Unit

Designed for the safe removal of condensate and PRV discharge, it is ideal for installations below the backflow level. Ready to install, it provides a practical solution for domestic applications.

Key Features

- Compact, quiet design
- Suitable for boilers up to 50 kW and air-conditioning systems
- Dual inlets for flexible connections
- Integrated non-return valve
- Float switch for level monitoring
- Potential-free alarm contact
- Easy installation and commissioning

£65.52
4273854

Atmos PICO

Entry-Level Small Circulator Pump

A reliable and cost-effective solution for heating, air-conditioning and cooling applications. Designed for quick installation and easy commissioning, it features a simple user interface with essential control functions for everyday operation.

Key Features

- **Entry-Level Design:** Compact, user-friendly pump for basic heating and cooling.
- **Variable Differential Pressure:** Automatically adjusts output for efficient, energy-saving operation.
- **High Performance:** Up to 8 m head for reliable system circulation.
- **Easy Installation:** Compact design with side-mounted Wilo connector for quick setup.

Heating System Chemicals

- Treats up to 100 litres
- Treats up to 10 Radiators
- Prevents Scale + Corrosion
- Dissolves Limescale
- Removes Installation Debris
- Non-Hazardous Formulation
- Seals Leaks + Weeping Joints
- Improves Heat Transfer
- Prevents Bacterial Growth
- Money Saving
- Use with Power Flushing Machines
- Bottle Volume: 250ml
- Made from 50% Recycled Plastic
- Made in Great Britain

250ml Bottles £8.66

2292364

IN-100 Concentrate Corrosion Inhibitor

Prevents corrosion, hard water limescale precipitation and is essential for protecting hot water heating systems and maintaining operational efficiency.

504223

IN-200 Boiler Noise Silencer

For established central heating systems. Restores and maintains heat exchanger efficiency in hard water areas and stops boiler noise by re-dissolving limescale precipitation on heat exchanger surfaces.

504230

2292365

IN-300 Concentrate System Cleaner

For commissioning new central heating systems. Removes installation foulants, flux, grease and debris suspended in water by flushing. Should be left in system minimum 2 hours, maximum 2 weeks.

504247

IN-400 Sludge Remover

For the regeneration of established heating systems. Removes (black) iron oxide corrosion products by flushing and restores circulation and system performance. Should be left in system minimum 2 hours, maximum 2 weeks.

504254

2292366

IN-500 Concentrate Leak Sealer

For the internal sealing of inaccessible leaks & weeping joints. Forms a soft seal within 24 hours. Will not cause blockages in circulatory pumps or air vents.

504261

IN-600 Heat Optimiser

Improves heat transfer. Saves up to 15% on heating costs.

504278

300ml Aerosol £14.65
Treats 120 Litres (12 Rads)

IN-700 System Biocide

Prevents bacterial growth in low temperature systems. Prevents bacterial and fungal growth. Suitable for under-floor and heat-pump systems.

504285

IN-800 Power Cleaner

Heavy duty cleaner for powered flushing of sludged systems. For the regeneration of sludged heating systems using powered flushing equipment. Assists in the rapid removal of iron oxide corrosion products.

504292

HENRAD

NEW CLASSIC COLUMN RANGE

With a new Italian-inspired design, this streamlined column radiator features a refined rounded profile, combining contemporary style with enhanced value and long-term performance.
Available in white (RAL 9016) as standard, it is also offered in a variety of colours with a fast 14 working day turnaround.
With a choice of sizes and horizontal options, it provides a versatile solution to complement a wide range of interiors.

Coloured radiators cannot be cancelled or returned once ordered.

15 YEAR WARRANTY | 10 BAR WORKING PRESSURE | WHITE IN STOCK

Coloured radiators cannot be cancelled or returned once ordered.

Everest Line Flat Panel Radiators

Designed for both new installations and replacements, these radiators offer reliable performance with a clean, modern finish. Manufactured from high-quality steel in Traffic White (RAL 9016) as standard, they feature ½" BSP connections, are tested to a 10 bar working pressure, and include a 5-year manufacturer's warranty. Available in a range of sizes and colour options.

Type 11: The single panel, single convector design provides an ideal balance of heat output and slimline dimensions, making it perfect where wall space is limited.

Type 12: The double panel, single convector design delivers increased heat output while maintaining a relatively compact projection, making it ideal for rooms with higher heating demands.

ECO-Mag Magnetic Filter

The Instinct ECO-Mag magnetic heating filter helps protect boilers and heating system components by reducing harmful system contaminants. Its triple-action filtration technology improves efficiency, reduces the risk of breakdowns, and helps extend system lifespan. Supplied with isolating ball valves for quick installation and easy maintenance.

The Inta magnetic filter is designed to maximise filtration with every system pass

Key Features

- Triple-action filtration removes magnetic and non-ferrous debris
- 12,000 gauss removable magnet
- 500ml dosing pot for easy chemical dosing
- Manual air bleed maintains system performance
- Includes spare washers and O-rings
- Full-bore valves for maximum flow
- Fits any pipe orientation
- Ideal for new and existing systems

UNDERFLOOR HEATING DESIGN SERVICE

Precision planning for maximum comfort & efficiency

Installing underfloor heating is an investment in comfort and energy efficiency. But to get the very best results, a carefully planned design is essential. That's where we come in.

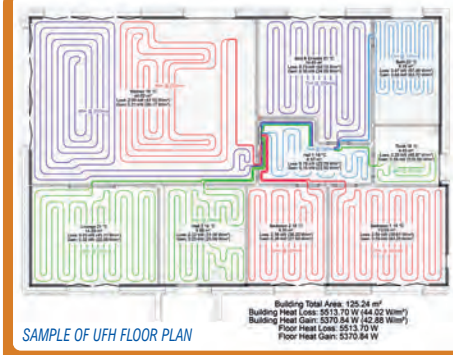

What we provide

Our professional design service gives you everything you need for a smooth installation:

- **Room-by-room layout drawings** – clear, accurate pipe layouts tailored to your space
- **Material calculations** – exact quantities of pipework, manifolds, and fixings, reducing waste and saving money
- **Heat loss considerations** – ensuring your system is powerful enough for each room
- **Installation-ready plans** – easy-to-follow designs that installers can work from with confidence

Why choose a design service?

- **Save time** – no guesswork or last-minute changes on-site
- **Save money** – order the right amount of materials, no more, no less
- **Peace of mind** – know your system will run at optimum efficiency from day one
- **Professional finish** – ensure a reliable and consistent heating performance

SAMPLE OF UFH FLOOR PLAN

Who It's For

- **Homeowners** planning a self-build or renovation
- **Builders and contractors** looking for ready-to-use plans
- **Installers** who want an accurate materials list and layout drawings

Make your underfloor heating project simple, efficient, and stress-free!

Let us design the warmth beneath your home - speak to your local branch or visit our website for more details.

Designed for all 210mm-centre UFH manifolds, the thermostatic blending valve is a quick and simple bolt-on solution. It mixes hot boiler water with cooler return water to deliver the correct flow temperature to the UFH system. Adjustable between 35°C and 60°C, it provides accurate temperature control to suit different floor constructions.

Main product features:

- Maximum supply pressure: 10 bar
- Hot temperature supply range: 60°C - 85°C
- Adjustable temperature range: 35°C - 60°C
- Temperature stability: +/- 3°C

Vaillant

uniSTOR High Recovery Slimline Cylinder Range

Compact and high-performance these slimline cylinders save space while delivering reliable hot water. Compatible with the full Vaillant heat pump range and all domestic boilers, they enhance efficiency and integrate seamlessly with Vaillant systems. A purpose-built 30L patented buffer store can be installed above or below the cylinder to add volume, enable hydraulic de-coupling, and boost heat pump efficiency during peak demand. Control your hot water anytime with the myVaillant app.

The new aroTHERM plus heat pump

The next generation aroTHERM plus heat pump has been fine-tuned and optimised to deliver Vaillant's most efficient air source heat pump yet.

Thanks to the new unique concept, the new aroTHERM plus has never been so simple to site and install. The protective zone around the heat pump has been significantly reduced, giving unprecedented flexibility.

QUIET MARK — A+++

Key Benefits

- Super quiet operation with particularly low noise level of only 44 dB(A).
- R290 refrigerant with a low GWP.
- The new anthracite casing blends in perfectly with UK housing stock. When installed with a myVAILLANT connect internet gateway and sensoCOMFORT which allows the remote monitoring and controlling of the heating system.

WORCESTER
BOSCH

Compress 2000 AWF

The CS2000 AWF is an all-in-one monobloc heat pump solution, designed to simplify and speed up installation. With a compact 2 m² footprint, it's ideal for smaller outdoor spaces, perfect for both renovations and new builds.

- Quick and easy installation – Full monobloc system with one outdoor unit and no indoor unit required.
- No F-Gas qualification needed – Simplifies compliance and installation process.
- Integrated HMI Master Controller with temperature sensor for zone control.
- High-performance R32 refrigerant (GWP 675) – efficient and environmentally safer.
- Delivers flow temperatures up to 65°C.

SIZE	PRICE
4kW 7738602277	£2146.59
6kW 7738602278	£2439.39

10kW 7738602280	£2968.26

Compress 5800i Heat Pump

The CS5800i range delivers high performance in a compact, ultra-quiet and easy-to-install design. Designed specifically for UK homes, it provides a complete heating solution for both new builds and renovation projects.

Key Benefits

- Ultra-quiet with integrated diffuser
- F-Gas free fitting with rear-facing connectors & monobloc design for quicker, easier installation.
- High-performance flow temperatures up to 75°C for a wider range of UK homes, with SCOP up to 4.65.
- R290 refrigerant with a low global warming potential (GWP) of just 3.
- Sleek Bosch design combining style, reliability, and performance.
- Installer-friendly plug-and-play indoor unit with integrated micro-buffer, diverter valves, pumps, and back-up heater for faster installation.
- Compatible with third-party cylinders and components.

SIZE	PRICE
4kW 8738213464	£3128.38
5kW 8738213465	£3294.00
7kW 8738213466	£3673.73

DAIKIN

Air-To-Water Heat Pumps

Daikin leads in heat pumps with R32 refrigerant, which has a lower Global Warming Potential, higher energy efficiency, and reduced CO2 emissions. R32 is also easy to recover and reuse, helping meet new CO2 targets.

Altherma H Hybrid

Hybrid technology combining condensing gas and air-to-water heat pump for heating and hot water.

- Heating only models
- Automatically selects the most economical heating mode based on outdoor temperature, energy prices, and heat demand.
- Lower installation costs by using existing radiators (up to 80°C) and pipework.
- Delivers heating for renovation projects with outputs up to 32 kW.
- Compact design for quick and easy installation.

SIZE	PRICE
4 Outdoor EJHA04AV3	£1882.75

Pre-Plumbed Cylinders

These pre-plumbed cylinders reduce heat loss, offer hydraulic separation with a 20L buffer vessel, and include all components for quick installation and optimal performance.

£442.80

PAC-IHP-12-BLK

Perfera

Choose Perfera for a more comfortable home. This premium wall-mounted unit combines heating, cooling and air purification, with a dual flap for even airflow. Motion detection directs air away from you and switches to energy-saving mode when the room is empty, while 3D airflow reaches into every corner.

Benefits:

- Seasonal efficiency up to A+++ in cooling & heating, even on Multi Splits
- Flash Streamer removes particles, allergens & odours
- Double louvre design that can be used to increase air throw
- 2 area intelligent PIR to prevent drafts
- Heat boost function for quick heat up. Set temp is reach 14% faster
- Piping length of 20mtr up to 3.5kw (4.2 & 5.2 30m)
- Connectible to Multi & Multi+ condensers
- Built in Wi-Fi and control via the Onecta app

2kw Indoor Unit + Outdoor Unit

£810.90

FTXM20A & RXM20A

DAIKIN

Daikin air-to-air heat pumps provide efficient heating and cooling with seasonal efficiency up to A+++. Using low-impact R32 refrigerant, they draw up to 80% of their energy from the air, while advanced inverter technology can reduce energy use by up to 30%. The high-wall indoor unit delivers cooled, filtered air, while the compact outdoor unit releases heat, providing a quiet, reliable and energy-efficient solution for every season.

Sensira

Benefits:

- Powerful mode for fast heating or cooling
- Biased auto airflow to prevent hot and cold drafts.
- Whisper quiet (< 20 db(A))
- Compact for above door installation
- Compact 5.0kw system, same size as a 2.0kW
- Not suitable for multi-application
- Built in Wi-Fi and control via the Onecta app

WORCESTER BOSCH

Worcester Bosch air conditioning systems provide efficient heating and cooling for year-round comfort. Designed for individual rooms, they filter up to 95% of dust, smoke and pollen while offering features such as directional airflow, low-humidity cooling, silent mode and energy-efficient settings. Optional app control also allows convenient remote operation and easy temperature control.

Climate 3200i

Benefits:

All-in-one: Heating, cooling, dehumidifying and purifying.

Efficient: A++ cooling, A+ heating.

Clean air: Double filter and ioniser.

Easy fit: Quick install and upkeep.

Guaranteed: 5 year warranty.

SIZE	PRICE
2.6kW 7733703595	£436.05
3.5kW 7733703596	£467.50
5.3kW 7733703597	£668.10
7kW 7733703598	£910.35

Climate 7000i

Benefits:

Efficient: SEER 9.4, SCOP 5.3.

Monitoring: Track use via HomeCom Easy app.

Air quality: Cold catalyst, bio filter, ioniser.

Smart: Works with Alexa, Google, Apple Home.

Easy fit: Quick install and upkeep.

Guaranteed: 7 year warranty.

SIZE	PRICE
2.6kW 7733703119	£695.30
3.5kW 7733703120	£732.70
5.3kW 7733703122	£923.10

ARISTON
The home of sustainable comfort

Prios Net Split Air Conditioner Built-in WiFi R32 Inverter

The PRIOS Net split air conditioner is a modern, efficient solution for year-round comfort. With heating and cooling functions, sleek design and smart controls, it offers reliable comfort and convenience for the modern home.

Benefits:

Wi-Fi: Smart control via Wi-Fi key.

ECO Mode: Reduces energy use.

Air Purification: Removes gases and fine particles.

Turbo Mode: Quickly reaches the desired temperature.

Silence: Ultra-quiet operation.

Self-Cleaning: Keeps the unit clean and efficient.

Follow Me: Precise temperature control where the remote is located.

Get MCS Certified - The easy way!

MCS (Microgeneration Certification Scheme) sets the standard for low-carbon technologies and the companies installing them. To obtain MCS certification for heat pump installations, the product and installation must meet strict criteria.

At Tucker French, we make this simple: our Umbrella Scheme takes the stress out of compliance, covering everything from design and documentation to commissioning and certification, so your projects are fully MCS approved, seamless, and reliable.

WHAT WE PROVIDE

- **Accurate room-by-room heat loss**
- **Ofgem grant applications managed**
- **ASHP DNO submissions simplified**
- **Optimised system performance**
- **Full MCS handover packs**
- **2 & 5-year warranties for peace of mind**

Find out more today - speak to your local branch or visit our website for details.

Fast. Compliant. Hassle-free!

Design

The first step is to understand your specific requirements and review the site conditions. Using the latest MCS standards, room-by-room heat losses are calculated to guarantee optimum efficiency and performance for the client.

Compliance

All necessary documentation, including system specifications and compliance certificates, is taken care of, making the commissioning process seamless and transparent.

Commission

Working closely with your installation teams, we ensure each system is thoroughly tested and validated for peak performance. We also provide expert guidance on system management and maintenance, setting your client up for long-term success.

Masters XXIIE Extended 22mm Pipe Bender

The XXIIE Extended Pipe Bender is designed for 22mm copper pipe (0.9mm wall). Its extended arms provide greater mechanical advantage, making bending easier. Supplied with two threaded extension handles, it features aluminium diecast forms, CNC-turned steel handles with knurled grips and replaceable nylon guides.

FEATURES

- Bends to 30°, 45°, 60° and 90°
- Integrated hook and nylon guide for easier use
- Improved sight lines for easier alignment
- Two rubber feet to protect floors

Clipcore System Steps

Save time, improve safety and protect tools with a Quick Release System for fast, easy Core Drill Bit removal using a simple hand-releasable clip.

STEP 1: Select appropriate Adaptor dependant on drill type.
STEP 2: Line up clip apertures on the Adaptor and Extension Bar/Core Adaptor.
STEP 3: Secure the connection with the Quick Release Clip.
STEP 4: Screw Diamond Core Bit onto Core Adaptor
STEP 5: Insert A Taper Drill Bit into the Core Adaptor.
For best results us a Clipcore Genuine A Taper Bit.

SOLOLIFT2 Macerators

A flexible, reliable range of macerator pumps for installing bathrooms, kitchens and other sanitary applications where conventional drainage isn't available.

Flexible installation: Suitable for bathrooms and kitchens in lofts, basements and other remote locations.

Reliable performance: Powerful motors and durable components provide dependable, long-term operation.

Hot water resistant: Selected models handle wastewater temperatures up to 90°C.

Easy to install: Adjustable discharge connections, flexible inlets and supplied non-return valves simplify installation.

Easy to service: Removable pump-motor units and accessible components make maintenance quick and straightforward.

Anti-blocking function: Helps reduce blockages and simplifies servicing.

Five models: A choice of models to suit toilets, bathrooms and kitchens, including slimline options for wall-hung toilets.

C-3:

Suitable for pumping grey wastewater up to 90 °C from a washing machine, dishwasher, kitchen sink, bath tub, shower or washbasin.

£299.00

BB98567

CWC-3:

A compact automatic lifting station especially designed for wall-hung toilets. The design is compact and slim for easy integration into the wall and is suitable for modern pre-wall installations.

£360.00

BB98565

WC-1:

The SOLOLIFT2 WC-1 is a compact automatic lifting station with 1 additional inlet connections suitable for pumping wastewater from a washbasin and sewage from a toilet.

£299.00

BB98561

WC-3:

A small, compact automatic lifting station with 3 additional inlet connections suitable for pumping domestic wastewater from a cabinet shower, bidet, washbasin as well as sewage from a toilet.

£319.00

BB98563

D-2:

A small, compact automatic lifting station suitable for pumping grey wastewater. It is possible to install SOLOLIFT2 D-2 underneath or next to the cabinet shower or washbasin.

MALONEY'S
PLUMBING & HEATING MERCHANTS

DAIKIN Sustainable Home Centre

Maloney's Sustainable Home Centre

Our dedication to sustainable energy is exemplified through the Daikin Sustainable Home Centre. Homeowners nationwide are seeking greener heating solutions for their homes. The Sustainable Home Network program provides customised solutions for businesses of all sizes, regardless of their stage in adopting renewable heating practices.

Maloney's, in collaboration with Daikin, has become a Sustainable Home Centre, unveiling a new showroom in Epsom. The showroom features a comprehensive range of renewable heating, hybrid solutions, and air purification solutions. Additionally, our fully operational training facility is designed to support installers in gaining the expertise required for installing and maintaining advanced, low-carbon technologies that contribute to environmental conservation.
